## **1. Problem:**

In each year, we spend one part of our time on resting or holidays to travel, play and enjoy and anyone feels difficult to deciding where to go, how to rest, what to eat as well as play and more importantly whether that place is suitable with us and our relatives or not?

You start to look for destinations from friends and unfortunately, they also are looking one destination for holiday like you, or somewhere you find out but you have come to. Wander to search on tourism websites; feel their introduction of tourism destination so attractive and interesting, maybe you found out one suitable destination for next holiday by yourself?

Unfortunately, those are uncertain and untested advertisement and they are usually not true like that. Trust me! Perhaps, you will not satisfy with serving quality and service quality. The destination is too boring unlikely its advertisement and sometime prices are not suitable with your choice.

We, the people got experiences from unexpected and unsatisfied things in holiday; saw many bad feedbacks and claims. Then, with expectation to help other people have comfortable and unforgettable holiday which they should be preserved, we have idea of social network foundation where everyone can share their experiences from trips. And then, people who are seeking destination for holiday can take aspiration from such interesting experiences. And that is Tourist Review of social network to share experiences of trips.

## **2. Introduction of Tourist Review**

Tourist Review is evaluation foundation based on blockchain for people who love travelling, food and beverage to combine one smart contract of connecting to experienced people through blockchain, to create an environment where users can search one destination or one dish quickly.

Possibly connect users together by common currency and user can realize benefits from using such currency for travelling, food and beverage in particular and applying for blockchain foundation in general.

Users can use token to replace for cash to pay for service suppliers through App and website of the issuer.

Users of cross-border travelling services will not have to exchange to other currencies difficultly while just only need use TRET to pay and naturally, they will be offered services with favorable prices.

TRET is a ERC20 based token on Ethereum blockchain.

### **3. Purposes of Tourist Review**

Because we need actual discovery with good service quality and Tourist Review can do it.

Evaluating people are all tourists or local people who register accounts on our website. These evaluations are more actual and practical than evaluations of someone or group of advertisers.

If advertisement of tourism and food & beverage service supplier is published for online review, it will be good for their services.

Network of information provision is continuously updated (Optimization of information and review quality)

New contents will be updated frequently.

More and more people search evaluation, experiences on services and products before using.

By ranking evaluation of users on the website, interesting articles will have more chances to be ranked higher than searching phases.

### **4. Strength of Tourist Review**

#### **a. Users and service suppliers all gain benefits**

Users will receive priorities from service suppliers such as discount of service price, special policies and more. Service suppliers will be known by more people and get more customers for their service.

#### **b. Feedbacks of users**

Evaluations can be good or not really good. All people want to listen to

evaluations of customers on their services.

Based on comments on their services, service suppliers can improve and enhance services and products in order to attract more service users.

The community bases on common evaluations of many users because those are most true and real base.

**c. Community communication channel**

In addition to posting evaluations, people in the community can joint into chatting with each other in chatting group created by us. By then, they can catch up more information.

**d. All users can share their experiences**

All people can create up reviews to destinations where they have ever come to and share their experiences to everyone. Experience reviews will be posted on our foundation. In order to ensure fairness and trust, they will be verified their identification.

**e. Relationship between service suppliers and the community**

Service advertiser likely normal user can post articles of their service. However, they can use TRET to pay for their service advertisement and naturally those articles will be displayed more outstanding that service suppliers need to attract more users of their services.

**f. Advantages and unique characteristics**

There will have individual review to be upgraded standard levels to gain money from number of review by their positive efforts.

Individual pages having huge quantity of followers will be offered gifts in type of project's symbol to motivate their spirit of experience sharing.

That will help them have more responsibilities for their interesting experience

articles when receive more TRET, this is true motivation for them to develop continuously.

When we begin to create up MVP, all registration accounts during that time will be offered one free TRET. At that time, they can use to donate their interesting experiences as contribution.

User can earn money from our foundation, payment service is provided and transactions for user are kept confidently, because of passing through blockchain then transactional history will be stored publically to avoid forging transactions. It is possible to exchange with all TRET users through TRET wallet.

## **5. What is TRET?**

TRET is a token used to pay and offer bonus for the market of tourism and food & beverage. Tourists will receive TRET by evaluating experiences on destinations where they came and will be offered bonus for articles and evaluations.

TRET is offered to the user when they create contents; take pictures, video for evaluation and ranking product, restaurant, hotel and local tourism services.

TRET is bonus as well as digital currency which allows users to be able to exchange with each other quickly

TRET is used by users to pay for service suppliers and to get discount. This will create up demand of using TRET to pay.

For example: tourism service supplier such as hotel can advertise on our foundation. Users will contact to advertisement creator for reservation. If use TRET to pay, users will be offered discount to service price. Thus, all users and service suppliers will own TRET.

## 6. Structure of token

*The total number of TRET Token created is 20,000,000,000 tokens at an initial price of 1 TRET = 0.00000005 ETH*

Contract: **0xc6d603a9df53d1542552058c382bf115aace70c7**

Name: **Tourist Review Token**
