2. LEGAL DISCLAIMER

The purpose of this document is to present the EXMR project. EXMR offers potential holders the power to acquire their ERC-20 tokens created within a smart-contract, the main function is to operate within an ecosystem or business platform called GetCryptoPayments.org. The information contained below may not be exhaustive and does not imply any element of a contractual relationship. Its sole purpose is to provide relevant and reasonable information to the holders of possible tokens so that they can carry out a thorough analysis of the company with the intention of acquiring their EXMR Tokens.

This document does not constitute an offer of sale or a request for an offer to purchase or a guarantee in any jurisdiction in which it is illegal to make such offer or request according to the guidelines of La Suiza FINMA, the securities of the United States and the SEC. or any other foreign regulatory authority has approved an investment in the tokens. An EXMR token can be classified as a guarantee of privacy as a right to tokens holders, to receive the benefits of their development operations and unique features. The statements, estimates and financial information contained in this document constitute statements or information. Such statements or information are related to known and unknown risks and uncertainties that could cause actual results or events to differ materially from the estimates or results expressed in such implied or prospective statements. This document is the official document in English, which is the official source of information about the EXMR token. The information contained in this document may be used in the course of written or verbal communication with existing and potential community members, partners, etc. In the course of the information, the content may change during the evolution of the EXMR project. The accuracy of the White Paper in English, the provisions of the original document in English will prevail.

3. OVERVIEW

EXMR is a standard ERC20 token, based on the interface of the Ethereum blockchain. Our growing community accepts Ethereum technology, because it is one of the best platforms that maintain a constant technological advance, offering speed and security in transactions, the advantage of obtaining an EXMR token, in addition to its great project, is because you will have the Absolute and complete control of your transactions, this immediately makes EXMR an efficient digital asset. All these advantages of being under the Ethereum ecosystem, accompanied by the EXMR contract that aims to encourage purchases and sales online through the main cryptocurrencies, visualize a great future for EXMR, which will become one of the most requested crypts for their usefulness and benefits. The EXMR GetCryptoPayments project will offer the possibility for people to buy goods and services in online stores, as well as making cryptographic payments in person through the Point of Sales (POS) system. The entire community involved in the world of cryptocurrencies will find EXMR, another ally or commercial partner of the first line, it is important to keep in mind that EXMR is not controlled by a central organization, this refers that there is not a single agent with the power to modify the rules of the shareholders or the economy of the token, if not that it works under a consensus in each movement. This document presents the philosophical, technical and economic mechanisms of EXMR.

3.1 INTRODUCTION

We have an EXMR ERC20 token, which works faster and more secure in terms of speed and transfer, Blockchain is an alternative for people to change towards a really promising technology. EXMR is presented as an ambitious project with a value that will increase steadily with time, support and vanguard, represented by its payment gateway and fiat service GetCryptoPayments, an ecosystem that guarantees the immortality of EXMR.

3.2 MISSION

Our mission is to create a revolution in the market around EXMR to become one of the most valuable cryptocurrencies, our goal is to be within the 100 major cryptocurrencies from here to its second year of project launch, according to the market capitalization. Our system of payment gateway and fiat service, will allow EXMR to obtain wide recognition, if we add the fact that EXMR has a limited edition of 15 million units, and that it has the support of a large community that is constant, in addition to the Overlord program that will generate holders thousands of EXMR plus other benefits of the GetCryptoPayments platform, this will make EXMR stronger every day.

3.3 VISION

We are helping to expand the boundaries of investment possibilities and to encourage skeptics to recognize tools offering the technology blockchain since this is a new reality for the classic financial markets. In short, EXMR aims to be a point of reference for the investment capital and a new instrument to be included in current, online payment system with the goal of being an emerging opportunity for a distributed economy. We are confident that the ecosystem that is being created around EXMR is promising since the objective is that each person to navigate through a virtual store can see the option to acquire their good or service through EXMR, this is our long-term goal.

3.4 THE PROBLEM

In the cryptocurrency market, the main problems are the misuse of many dark sectors, both in laundering and in terrorism. EXMR aims to be the difference by offering commercial use, to be accepted by all countries. New people who join the Blockchain technology and who access cryptocurrencies without knowledge, buying and selling in exchanges, will find in EXMR a low-risk token, which aims to be a reference or gateway for new people You will enter this fascinating world of cryptocurrencies.

THE SOLUTION

Any business or individual wants speed, convenience, transparency, low operating costs, security and control over your transactions all these advantages and solutions. Our motive is to encourage online crypto payments and Fiat service with our GetCryptoPayments, a better confidence towards the tokens and all the cryptocurrencies at the same time. Another solution is that now a number of stores and online merchants may receive payments in EXMR with zero costs of rate and other cryptocurrencies with low rates... GetCryptoPayments is creating an opportunity for cryptocurrencies by bringing them to everyday use.

4. TECHNICAL INFORMATION

- Why we select Ethereum Blockchain

The blockchain of the Ethereum has a high technological level, it works very similar to Bitcoin, but above all the most important thing the blockchain consists of a series of blocks and each block contains a pointer to the previous block and an ordered list of operations. Blocks are secured by the proof of work, with "long chain" (as defined by the total difficulty) by defining the set of committed transactions and order that must be processed. To get to the "current state" of the Ethereum blockchain, a node can start from the State of "genesis" (a common initial state that is included with each client from Ethereum) and process each transaction, any balance/sequence resulting from the application number code storage changes sequentially processing and code of execution of the transaction. The same process occurs in Bitcoin; Although Ethereum's emphasis on "transition state" of the execution of the transaction model is unique (for example, in Bitcoin, a transaction often philosophical is seen as an expense "outputs" from a previous operation in history, not in objects in the State), the way it works the code Ethereum, Bitcoin and other protocols such as Ripple, Dogecoin, etc., is essentially the same.

4.1 EXMR TOKEN

EXMR is only created during a single event and started last October 2017.

EXMR believes that up to 15 million this means that the maximum amount of its total EXMR supply will always be 15 million.

Name: EXMR

Symbol: EXMR

Decimal: 8

Contract: 0xc98e0639c6d2ec037a615341c369666b110e80e5

Total: 15 million

5. OVERLORD PROGRAM

We present the best **Overlord program** with monthly benefits in EXMR, and the benefits of GetCryptoPayments will be distributed quarterly.

Overlord program, shows that we gratify our community, and makes our EXMR every day one of the most famous and coveted projects by all, EXMR is among all the cryptocurrencies in the market the noblest, we dare to say that soon we will take an enviable position before many other altcoins, our strategy of rewarding our Overlord continues to create an expansion of our community, where each participant benefits from EXMR directly while waiting quietly for EXMR to achieve its goals established in our Roadmap and which is of mutual interest to everyone.

Graphic of Overlord Cycle.

6. VALUE FOR HOLDERS

The value of EXMR is determined by these three factors.

First - EXMR with a limited edition of 15 million, estimated to reach in a short time a \$ trillion market capitalization, by the great demand and utility of EXMR, creating this increase in the value of EXMR from the use of its payment gateway online, direct sales and multi-wallets point.

Second -EXMR controlled distribution, to achieve increased day by day its value on the market, many people possible acquired through markets called Exchanges.

Third – EXMR holders will have EXMR coins monthly, and GetCryptoPayments profit, distributed on a quarterly basis, this bonus will be intended only for holders or Overlords, over 20K EXMR, which will come from revenues by concepts of the rates obtained by listing coin fees, for each operation fees by the users of the gateway getcryptopayments.org, with this incentive to the obtainment of EXMR as a valuable asset for each holder. Understand that the value of EXMR will grow gradually in time, which makes it into a precious asset and with a promising future.

6.1 ACHIEVEMENTS

We have built a community that is very strong, managing to create a popularity, within the first year obtained more than of 3k followers on Twitter, 12K on Facebook etc., more than 20K members are connected now to EXMR in all Telegrams groups. You can find us on Reddit and Bitcointalk with over 100 reviews more positive feedback.

8. ROADMAP

ROADMAP '19

EXMR TOKEN & GETCRYPTOPAYMENTS PROJECT

9 GETCRYPTOPAYMENTS

Meet our project:

EXMR, is the official token of GetCryptoPayments®, this payment gateway will be presented in the month of July in its alpha version, its main function will be to integrate a wide universe of Tokens and Coins, so that now both merchants online as local, can receive payments in most crypto coins safely, quickly and with a low fee.

How will it work?

EXMR will be the official token that means the system of voting and payments to list each Token or Coin will be through EXMR, besides that the payments received online or in local stores with EXMR will have Zero fees, only the cost of gas.

What benefit will the merchants have in receiving their payments with EXMR?

They will be able to swap **EXMR to ETH**, only with the cost of gas, without an additional fee, with it you can convert it to dollars(fiat) easily through our platform.

Overlord Program?

Currently we have a program called Whales Members, which consists of holders of more than 30K EXMR, they will have the benefit and advantage, that they will receive a monthly and quarterly income as long as they keep their EXMR in their wallets, since the platform enters into operation, what we call a bonus, this percentage will be distributed to these Wallets in EXMR and Ethereum Coin.

Where do these revenues come from?

For the following fee concepts: by the transaction, by listing, by votes, by swap, by receiving online and local payments, by placing and promoting your store in the first positions within the platform, etc...

GetCryptoPayments is a well-conceived and complete ecosystem. You can find the project online [https // getcryptopayments.org](https://getcryptopayments.org) EXMR is the only one in this type that will share and distribute its benefits to holders of EXMR.

10. CONCLUSION

EXMR has only 15 million supplies and is compatible with the Ethereum platform that provides in the world of encryption, with the new blockchain technology that we are integrating the ERC-20 and our EXMR is now faster.

Our main proposal is to cover several fundamental aspects: Security, lower cost transactions, speed and our business prototype an online payment gateway and Fiat services, a point of sales (POS), multiple wallets, and a global expansion of our project. A macro exposition and the unlimited use of the crypto world will make EXMR reach different countries around the world so that everyone can use our online services. EXMR holders will benefit from the quarterly bonuses and thousands of EXMR per month. By hold a minimum of 30,000 EXMR, there are many advantages to being an EXMR holder. Now everything is changing, the old technology has always been replaced by the new one, and remember that the new technology provides a new opportunity for everyone, so be part of it. Investors in the world of cryptocurrency can take this opportunity to obtain each EXMR now at a low cost with the assurance that our project is growing and you will always be supported by EXMR and GetCryptoPayments.org.
