

Bankcoin BCASH Gaming Platform Token

The Concept Bankcoin (BCASH) is a Gaming ERC20 token which through our internal exchange increases in value every hour from the 1st of June 2019 when launched. We achieve this growth through a unique model of burning a percentage of tokens when sold through the exchange. This reduction in circulating Tokens creates the underlying value of BCASH. Investors that hold Tokens are not in any lock in periods and have full control as to when they eventually sell their tokens. Price increase No lock in periods
Circulating Tokens Reduce each hour over time
TOKEN INFORMATION
