About Team Development

Introduction

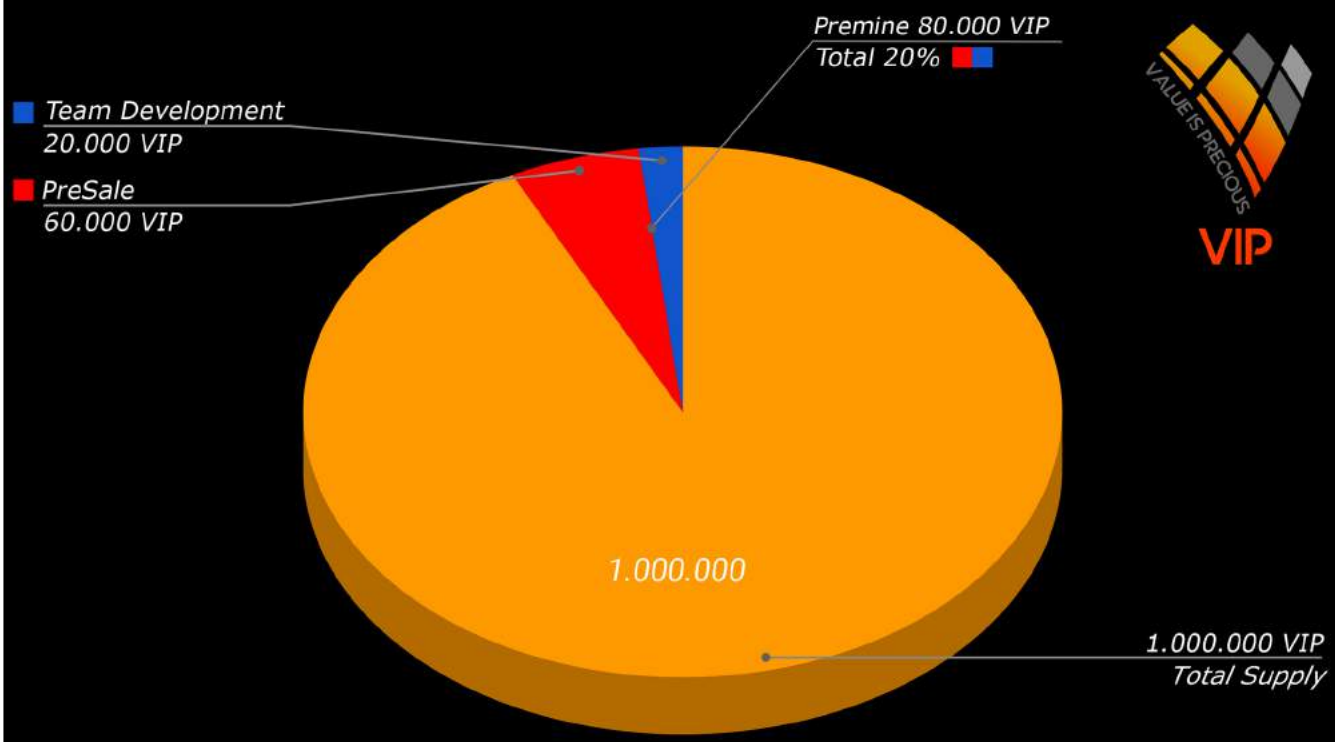

The world of cryptocurrency today is full of challenges and competition. The choice is widespread, only the best will be an option. We at VIP introduced a new system in today's crypto world by introducing a dividends platform for our valued coin holders.

We have opened up space for all to enjoy the same rewards as the big holders with a minimum qualifying. Especially those who do not have the chance to have coin for shared masternode.

The system and logic that has been designed are to motivate the price and value of this coin to remain firm in the world market. The higher the VIP price, the greater the reward will be.

This process will remain in the platform and will bring about a change in the present and future world of crypto competition.

Most large holders are often given a priority in a crypto project. But we are different. Everyone has a role, those with little grip are also very valuable to us. Therefore, the same reward will be accepted by all.

Our Feature

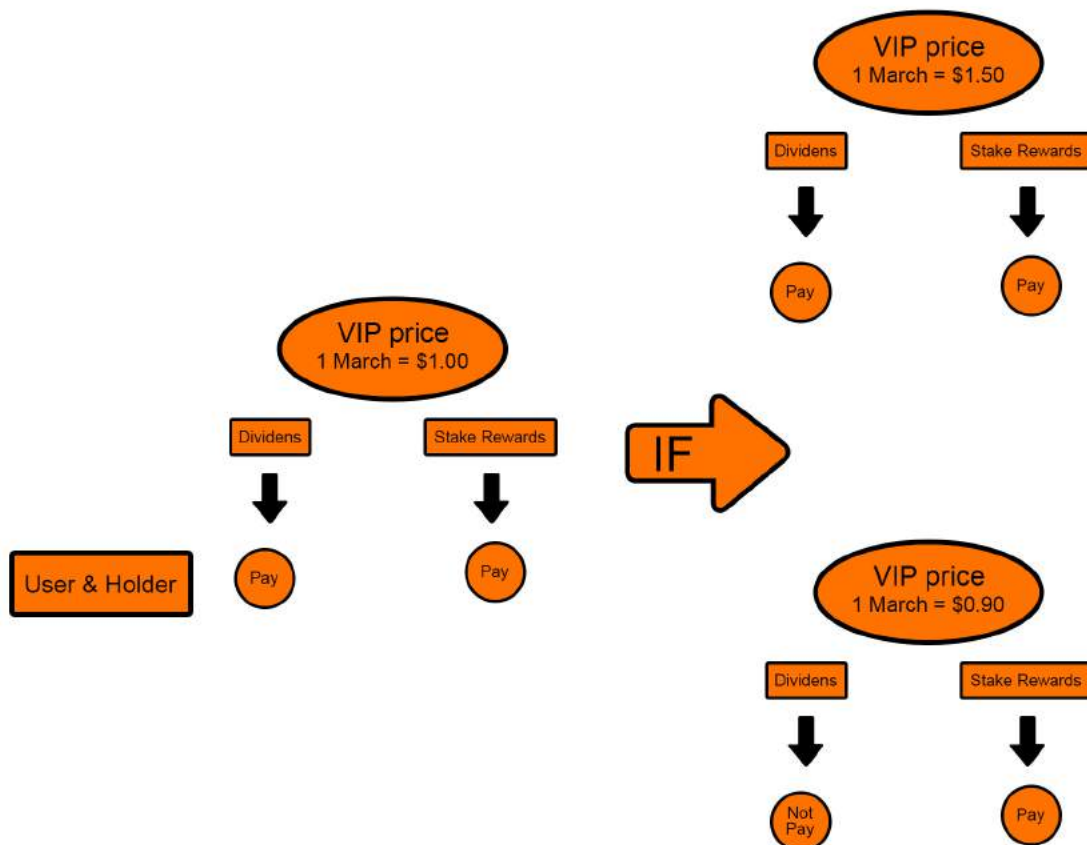

Devidends Platform

The platform we call 'Dividends Platform' is intended to reward coin holders especially those who are unable to join the "Shared Masternode" that must have 200 VIPs.

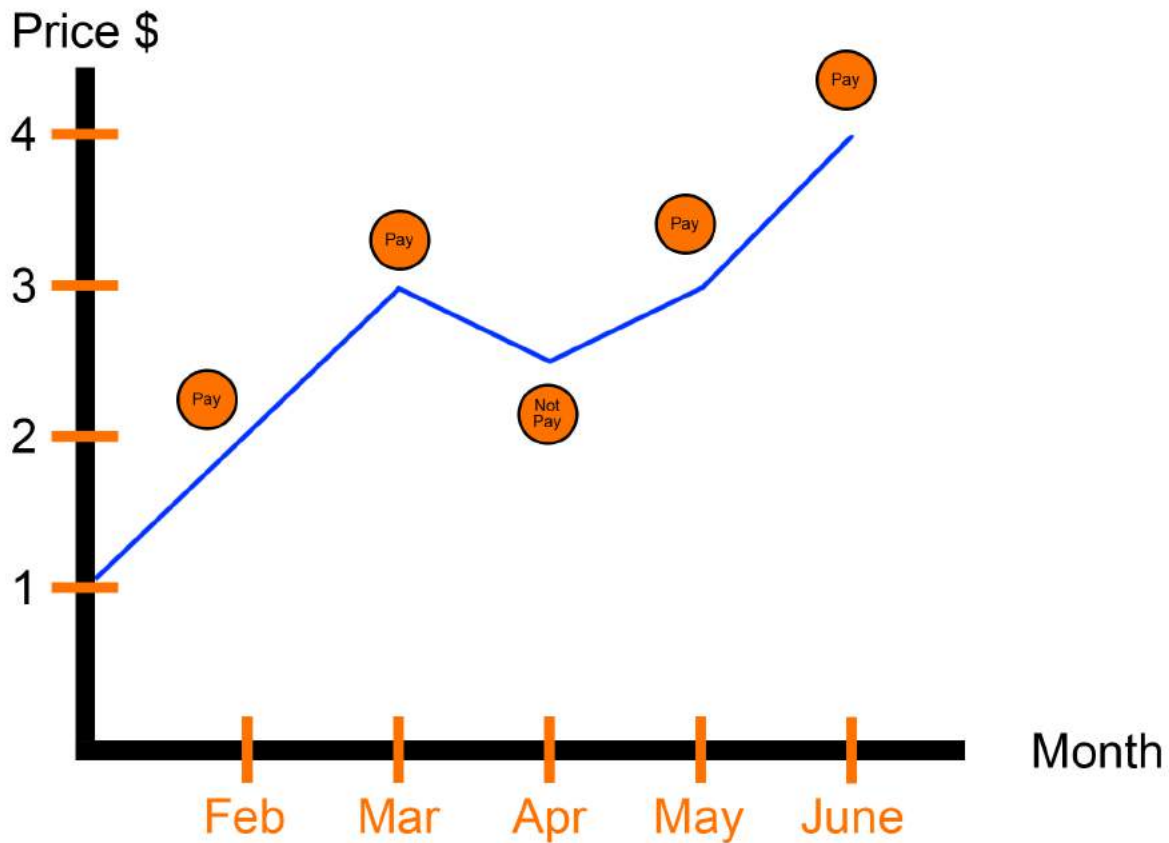

With a minimum of 50 VIPs, this small holder will be able to receive rewards by saving their coin on this platform.

Depositors will also get bonuses from Staking Rewards. For those who own a coin of more than 200 coins, it can also 'Hodl' coin on this platform to enjoy rewards from the platform.

How Platform Work

Payment Distribution

Payment Method

Payment of dividends is equal to all coin holders in this platform. Only rewards of staking rewards vary depending on the amount of coin stored.

About Team Development

We are a dedicated team who wants to strengthen the crypto world today. We come across many of the world with their own experience and privileges. Our efforts will remain firm in the success of this project
