# FREE CRYPTO LOTTO

*"BRINGING CRYPTO TO THE  
MASSES"*

Prepared by: Richard Dack  
CEO and Founder

# About Us

With the ubiquity of smartphones, tablets, laptops and desktops nowadays, we cannot deny the huge impact of social media in driving consumer behaviour, especially in Crypto. That's why we want to bring crypto and block chain to the masses. By the means of being able to spare your time and your eyes.

Imagine spending One to Two minutes of your time and winning some Bitcoin, Ethereum, XRP and many more.

# Mission and Vision

From Idea to conception, the lightbulb moment came at the end of 2017 early 2018 right after the bull run.

A lot of retail consumers blindly invested at the top and got stung. This scared a typical retail investor into investing their funds into the cryptosphere again. That is why we have come up with Free Crypto Lotto.

From seasoned crypto veterans to new retail investors our vision is to bring crypto to everybody in the world through the way of a simple free lottery

# The Project

Free crypto lotto is the first of its kind to offer crypto currency for free via a lottery, paid for exclusively by advertising.

Users will sign up to the website with username, email and password. They will then be generated a unique ID.

This unique id will be drawn randomly by the draw machine that will use <https://www.random.org> to determine the winner of each draw.

The user is requested to add in each public key responding to the crypto that we choose to give away to their account. No private keys will be stored on the server.

On a successful win for a user, they will be notified by email and payouts will be done within 24 hours.

To enter a draw, users will be requested to earn tickets, these tickets can then be exchanged for draw entries.

Types of actions to gain draw tickets will be from clicking on an advert, watching a quick video, filling out surveys, and more.

When the user enters a draw, they are left over with a ticket stub. This ticket stub can be redeemed for our very own crypto currency FCL.

Ticket stubs will be redeemable at a rate of 1stub = \$0.01

This means that the redemption of stubs will always be fair depending on the price

\$0.01 / Average Price of FCL

Average Price of FCL	Amount of FCL
\$0.00000068	14705
\$0.00025	40
\$0.47	0.021276596
\$1	0.01FCL

## FCL Token

*Why the token?*

Who doesn't love a freebie? The token is introduced as a bonus to the user who enters draws. There is a minimum of ten ticket redemption before FCL can be withdrawn

*What can it be used for?*

That's a good question, FCL can be bought and sold on exchanges, **BUT it can also be used to re-enter draws.** This option can only be unlocked after a user watches a video each day. There is a cap on how many times FCL can be used to re-enter draws and that is Ten times a day.

*How many times can i enter?*

You can enter as many times as you like as long as you gain a ticket from watching videos

*What happens to the FCL that is used to enter draws?*

This FCL is then escrowed away for 6 months to keep price stable after that it is released.

*What is the cost of FCL to reenter draws?*

To reenter a draw will be the equivalent of \$1 worth of FCL

# Flow of FCL

Below is a visual representation of how FCL will flow in and out of the system

# Token Distribution

The total supply of FCL is 1,000,000,000,000. This amount is stored in escrow and will be released dependant on the total number of users on the website.

The release schedule is as follows dependant on the total amount of website users.

Foundation : 130 Billion Locked until 2025

Sales : 250 Billion

Airdrops : 50 Billion

FCL system : 400 Billion

Product Development : 120 billion

Community Development : 50 Billion

$$1,000,000,000,000 - 130,000,000,000 = 870,000,000,000$$

\* Airdrops after 1Million website users will be distributed dependant on the users total FCL holding

\*\* Released to exchanges could include but not limited to “Sales, Product Development, and Community Development”

\*\*\*Note Circulating supply will gradually increase due to people cashing in their ticket stubs and FCL being released from the prize account

Tokens will only be released once the website hits a certain amount of users
