The world today is being carry out by making more money, building mansions, business empires and structures for their self-ego, we are forgetting the part of us that always cry out by day. Sometimes we think that loving children, buying gifts and having a nanny with is enough to show that we care for them, but it's beyond that.

Children while growing need to be listened to, they want to express themselves and that is why we came in, to build the bridge between families and businesses.

Making it easier for parents to answer to their children's needs! While tapping into the Digital Currency. SwapPlay Children's Playground Center has indeed coped well over the last five years, as it recovered from the economic downturn that affected most businesses.

On the other hand, the Children's Playground Center of which SwapPlay playground line of business is subset of it's indeed a very large industry and pretty much thriving in all parts of the world especially in developed countries such as United States of America, Canada, United Kingdom, Germany, Australia and Italy According to IBISWORLD, The revenue for the Children's Playground Center is expected to increase at an average annual rate of 2.0 percent to \$550.3 million over the five years to 2016.

But the same cannot be said about most Developing Countries, especially in Africa. Children feel cheated from one of their most basic rights. Child-labour increasing doily, child abuse, and even lack of education and core...

But here is the truth, there is an opportunity, not only for businesses, but for families and children especially.

Blockchain technology has proved to be a disruptive revolution and innovation for many industries, particularly the finance industry. With its presence, as one of the main 10 developing advances in 2016, its maturity has seen blue-chip companies recognize it as a potential disruptor for several industries. The Blockchain revolution however can only remain embraced by every industry.

The vast continent of Africa, the second largest continent on earth, spans 8,000 kilometers. It encompasses the world's largest desert, the Sahara; longest river, the Nile; and highest free-standing mountain, Mt. Kilimanjaro. Its geography and climate range from dry deserts in the North to the savannah plains and lush rainforests of its central and Southern regions. It is home to an enormous variety of wild animals, including elephants, giraffes, lions, apes, and crocodiles. The people of Africa are equally diverse; over 2,000 languages are spoken there. Africa's beautiful and rhythmically complex music reflects the rich diversity of its landscape, languages, cultures, and people. The Arab slave trade in the 7th and 15th centuries and the Atlantic slave trade beginning in the 16th century forced many Africans into slavery and brought African cultural traditions to foreign lands, such as present-day Spain, Turkey, Brazil, the Caribbean, and the United States. The French, English, Belgians, Portuguese, and Dutch who colonized parts of Africa beginning in the late 18th century also left their mark on its music, language, and culture.

The struggles of the African people for independence have been hard won, and contemporary struggles against disease, poverty, and conflict pose challenges for many African countries today. Through their music, the people of Africa express their identity, celebrate their traditions, tell their history and convey their hopes for the future.

The diaspora of Africans due to slavery and emigration influenced music throughout the world. Music styles in the Americas, such as gospel, blues, rock and roll, rhythm and blues, funk, salsa, bomba and hip hop all have roots in African musical traditions. These musical forms share characteristics such as complex rhythms, an emphasis on improvisation, call and response patterns, multiple melodic lines (polyrhythm), and communal participation. Listen for these features as you take a musical journey with African Playground.

From the history of Africa rises so many challenges, including corruption and mainly in politics and bad policies. The African continent suffers from poor infrastructural construction among many other things. Governments are highly criticized both by Africans and non-Africans. Many youths died on their way out of Africa, and many keep dying, and it's no news that the slave trade is still a current trend. When we asked few of those Emigrants who risked their lives just to get out of Africa we understood their condition and their reasons.

Bad policies in most African countries makes it difficult for their people to get fulfilled, they feel cheated, the children are put to labour, and they really have a challenging childhood...

Many businesses are evolving, many factories are being created, many investors are coming in to Africa; But very few if not none are geared towards the Children, we forget that the Children make our tomorrow, The Children will replace us if we like or not...

Africa is the place to invest, but not just investing in adult infrastructures and businesses.

What done out of love cannot be easily broken, when your dreams comes from your heart and your out of passion nothing can stop you... All started with the love to see Children in Africa grow happy and fulfilled.

INTEGRITY: This is the core root of our project. It's a virtue that has been lacking In Africa. Integrity is the answer to the problem of corruption. This is our driving force, as we believe that integrity is the answer to Africa problem...at least a starting point.

DEDICATION: SwapCoinz team and support are dedicated to see this vision come to pass and we will give you more lights about our project. Our dedication and commitment towards the Children is our Anchor

ACTION: Many have good intentions but few actually take bold steps to act towards the fulfillment of their dreams. Swapcoinz project is a life dream, and we believe in action taking for the actualization of Dreams
