

SPARK

The future of e-gaming platforms at light speed

01.Introduction

SPOKpark is meant to be an innovative e-gaming platform powered by TRON network that aims at making the online gambling and betting industry decentralized.

Today's gaming market suffers from the crisis of trust between the players and the game organizers. The organizers of gambling games and sports betting resort to manipulating the winnings in order to maximize their profits. The cases of outright refusal to pay out the winnings have become a frequent occurrence.

Thanks to the DApp market growth, the e-gaming industry can now relies on an innovative e-gaming platform that encompasses all the main Blockchain's cornerstones: Performances, Clearness, Fairness, and Profit Redistribution.

Here SPOKpark comes to play: provide a completely new game experience removing all the unpleasant procedures of the traditional platforms through a transparent, permission-less and performant e-gaming platform based on TRON Blockchain.

Join the future of e-gaming platforms at light speed

02.Prospect

According to a report of the British research center, Juniper Research, the total betting volume in online gambling will reach \$1 trillion by 2022 on the world scale. In 2018 the betting volume will reach \$700 billion and the number of players will double and reach the mark of 684 million persons.

Experts point out that the increase in the market size is directly connected with the development of digital technologies and the increase of players' trust towards online casinos. The Blockchain technology offers big opportunities for the development of the online gambling industry. Already now cryptocurrency gambling is a global market with the capitalization of about \$30 billion and the annual growth of 10%.

03. The SPOK.PARK Platform

In spite of the significant growth of the online gambling industry, early issues that made some countries to accept, and the others to reject the idea of online gambling, still lurk within. These have, over time, formed to become a major problem faced by the industry. Some of them are highlighted below.

Illegal tax avoidance: This is one reason some countries reject online gambling, especially in those which lack the mechanism to monitor or are unwilling to check the activities of the online gambling industry.

Player discernment: This is another issue that lurks within the online gambling system. Player discernment occurs mostly in games that are played from remote locations. A player, playing a game with another player that he does not see, may doubt if he is playing with a real human.

Security: This is a significant part of the numerous challenges faced by the online gambling industry. Traditional online gambling service providers operate through a centralized network of computers. The primary issue with this method is this: whenever there is any system hacking incident, the user will lose their money including information relating to bank account details and other confidential information

Trust: The online gambling industry functions through code generated from a close-source system. A group of developers can change such code within the system. Reasons such as these become expressly visible for games like poker, where both parties initiate and play games remotely makes the issue of trust a significant one in online gambling. Payment: Deposit and Withdrawal are always a big problem for players. Payment issues have been long-standing problems with online gambling due to legislation put on a very low transfer and deposit limit on fiat cards.

Slowness: The possible steps in the traditional online gambling systems are numerous because traditional online gambling service providers are desperately interested in getting as much information about players with less focus about the game per se. They are compelled to do this with the intention of protecting their system against unlawful intruders. This is not so with SPOK.PARK system that deployed the Blockchain technology through a smart contract with participants.

Unreliability: There are cases where the game host server shuts down and then the player would have to be left at the mercy of the host because he would have to embark on a rigorous process of ensuring a refund of his game. But with the SPOK.PARK system, from the point where you choose your game, to the point of payment, are all based on smart contract powered by the Blockchain technology. Hence in the occurrence of server issues, players would not have to be left fending for themselves.

The SPOK.PARK team introduces a platform that is trustless, borderless, secure, and fast for online gambling powered by the Blockchain technology.

A Trustless platform: No need to trust the system, everything is written in Smart Contract.

A Privacy-Protected Platform: No need to share any personal information. What you need is just a wallet.

An Anonymous Platform: You are hidden from the internet, our platform is only interested in your optimal satisfaction while placing your bets online rather than focusing on knowing your name, your favorites and so on. All we are interested in is that you place your bet, get the outcome and be rewarded.

A Reliable Platform: Thanks to Blockchain technology and our decentralized systems, you can play whenever you want and cease the worry about corruption or trusting a third party.

A Secure Platform: Online gambling with SPOK.PARK is secure. This means that no one has prior knowledge or access to your online wallet.

A Transparent Platform: Everything is transparent, from the time you make your deposit, to the time when your game result will be out, you would have it recorded in a way that is immutable and visible to every person.

Zero Fees Policy

In the spirit of TRON Network, SPQK PARK will cover all the energy costs (fees) of the bets made by all players. The coverage of fees will be performed with a best effort policy up to the complete burnout of the energy generated by the amount of TRON frozen by the owner of the smart contracts. To continuously improve the coverage of the policy, a percentage of the earnings generated by the platform will be frozen to produce energy.

Referral Program

SPQK PARK comes with a unique referral program hard-coded into the smart contract. Simply refer your friends to join SPQK PARK and you will receive 0.2% of all their winnings. Bonuses will be automatically transferred through a smart contract to the promoting player's wallet.

The SPQK PARK team also introduces next generation technology content to e-gaming platforms with higher performance and scalability features. As mentioned above, the TRON network is a new technological advancement in Blockchain looking to decentralize the web. With the ability to handle 2000 Transaction Per Second it provides a stable network with ease of scalability compared to other Mainnets providing users with the best user experience.

SPOK PARK Phase 2 Concept

SPOK PARK Phase 2 is a visionary idea of an online e-gaming platform where absolutely all the games will be hosted and controlled by the users of the platform. The platform is created as a “white label”, so we can sell it to other operators. This, in turn, will allow us to share the concept around the world in a short time and make it an industry standard.

Also, this platform has an open API (application programming interface). This will make it possible to add games created by third-party developers. This way the library of games on the platform can be constantly replenished and expanded with minimum time and money invested.

Phase 2 will be also characterized by the availability of following main features on the platform:

- ⚙️ SPOK PARK will develop an exchange on the platform so users can freely exchange tokens on the platform itself.
- ⚙️ SPOK PARK will add another layer of income generation in the form of an advertising share on the platform providing SpokLottery (SPKL) token holders with even more earnings.
- ⚙️ SPOK PARK additional games.

04. The SpokLottery(SPKL) token

Conversely to many crypto e-gaming platforms, requiring users to use a proprietary token only available on their platform, **SPOK PARK** will use TRX as the major currency on the platform: both wagers and related earnings are TRX based.

Users need just to use, or alternatively set up, a TRON wallet, logon to the **SPOK PARK** platform and they can immediately enjoy a totally different gaming experience.

So what's the role of SpokLottery (SPKL) Token on the platform?

SpokLottery (SPKL) token is the heart of the complete project: everything will rotate around it.

Hereinafter a recap of main benefits deriving by holding and using it:

- ⚙ Bonus Tournaments;
- ⚙ Get Dividends from the Platform;
- ⚙ Play on DICE game;
- ⚙ Exchange trading.

SPKL tokens are TRC20 compliant, which certainly reduces the processing and transaction time required for transferring of funds.

The right to vote.

Regularly, we will hold a vote among our users in order to improve the **SPOK PARK** platform. You will be able to try on the role of the performer of the project's fate. Your vote will directly affect the future functionality of the platform, and you will be able to choose the games other people will play and test their luck.

Token Distribution

The total supply of 999,999,999 SPKL with precision: 6 will be distributed as illustrated below.

- ⚙️ 15% Token sale & Airdrop
- ⚙️ 60% Mining
- ⚙️ 20% SPOK Team
- ⚙️ 5% Development & Marketing

SPKL Token Distribution

05. Mining and Platform Dividends

60% SPKL tokens will be mined and distributed to **SPOKPARK** Platform Players

Mining at Glance

SPKL mining will be arranged in 5 different stages :

- ⚙️ During each stage 120,000,000 of SPKL will be mined for a total of 600,000,000 SPKL;
- ⚙️ Every TRX placed on **SPOKPARK** returns SPKL tokens to the players and the opportunity to receive dividends;
- ⚙️ In the following table is shown the SPKL mining rate for each Stage:

Mining STAGE	TRX to mine 1 SPKL	SPKL	Mined SPKL per STAGE
STAGE 1	3	1	120,000,000
STAGE 2	4	1	120,000,000
STAGE 3	5	1	120,000,000
STAGE 4	7	1	120,000,000
STAGE 5	14	1	120,000,000

Dividends & prize distribution

24h Dividends Model Distribution

On a regular basis, the Dividends pool distribution to SPKL token holders will be like below:

- 55% to the Platform players
- 40% to the TEAM (*the TEAM will not freeze any tokens in the Platform)
- 5% Daily Top 10 wagered prize

Dividends are paid out every 24 hours. You can check the countdown timer for the next dividends payout on <https://spokpark.io> on Dividends section.

Dividends distribution is made in TRX among all SPKL token holders who froze their tokens (at least 1,000 SPKL) on **SPOKPARK** Platform before the end on the Dividends countdown.

After the Dividends countdown expires, dividends will be distributed automatically and immediately by the smart contract.

SPKL token can also be used to play on DICE game. All losses come from the players will be added on dedicated Weekly Burn Pool section. The token burn will happen weekly bases if the Burn Pool will be positive.

06. SPKL Roadmap

Q4 - 2018

- ⚙ Giveaway for Prizes & Promotions.
- ⚙ The initial 15,000,000 SPKL token sale starts for crowd-funded.

Q1 - 2019

- ⚙ White Paper Official Release
- ⚙ Begin extensive PR & Social Media Campaigns.
- ⚙ Complete the initial token sale to achieve the soft cap.
- ⚙ Official Launch of beta version of Decentralized Online Betting Platform with first in-House #DICE game.

Q2 - 2019

- ⚙ Second in-House game #RING launch.
- ⚙ Platform improvements & Bug fixing
- ⚙ PR & Social Media Campaigns.

Q3 - 2019

- ⚙ Continuous Platform improvements &
- ⚙ Third in-House game #ROCK launch.

Q4 - 2019

- ⚙ Bug fixing & continuous Platform improvements
- ⚙ New beta website UI launch

Q1 / Q3 2020

- ⚙ SPOKpark will enable the possibility to play with SPKL token on #DICE
- ⚙ Begin on possible strategic partnership & SLOTS integration
- ⚙ SPOKpark 2.0 launch (TRC20 fully integrated, new Dividends Distribution Model and Daily Prize Top 10 Wager)
- ⚙ Fourth in-House game #SPOK SNAKE launch.
