Introduction

IOI is the #1 ecosystem for gamers and traders powered by Defi and NFT's to bring you lifetime rewards, that adds an element of gaming to make the trading a fun experience. With IOI, you can trade cryptocurrencies in a different way, where traders may bet on themselves and compete against each other in many trading contests, known as races.

Entertaining trading

IOI, as the #1 ecosystem for gamers and traders, powered by Defi and NFT's connects cryptocurrency traders. Trading will not be boring anymore, it becomes entertaining. Cryptocurrency traders can get in touch and learn from each other following crypto portfolios of other traders, who are known as racers, using exciting UI.

Gaming

IOI will utilize elements of gamification to give the complex world of crypto trading a fun and relatable format; a car racing game in which the performance of a coin fuels the progress of a race car. Race winners will receive IOI Tokens which they can exchange for various features and abilities on the IOI platform in the near future.

Target audience

Our primary focus will be on two types of customers:

- Less experienced crypto traders who are interested in the business but cannot fully commit their time to cryptocurrency trading and technical analyses. They are users that have an internet-enabled device, are interested in new technologies, use their smartphone for at least 3 hours each day, have a positive outlook on cryptocurrencies and are willing to learn new things.
- More experienced traders who have been successfully trading cryptocurrencies for some time, and are now looking for additional sources of income. They are users that make money through crypto trading regularly, are open to new ideas and are constantly on the lookout for new sources of income. When casual traders attempt to make sense of cryptocurrency markets, they will inevitably come up with questions such as: Who to follow? When to buy? How can I choose the best performing coin? People tend to seek the advice of their more experienced peers.

IOI was created to provide a wholesale solution for everyone who is interested in crypto trading and wants to learn the business in a safe and fun environment. IOI is an interactive social crypto-trading platform that uses elements of gaming to create a relatable and easy-to-understand overview of cryptocurrencies and their market performance.

What does IOI provide?

Gaming adventure – trading with cars

IOI will provide its users with a social crypto trading platform that integrates elements of gamification. We want traders to enjoy the trading and bring them something new, and more exciting.

IOI will help its users to be connected, get verified results and, as a bonus, earn money together with their friends. Nothing in life should be boring, and crypto trading shouldn't be an exception. This is why we gamified daily trading with races.

Conventional daily trading is the past. Daily trading will take place in different types of races. Just pick your car, fuel it up with your best performance coins that will be used as gas, and become the winner of the race. Every day you reach new levels, receive ratings and attract new fans who can help you earn more.

Eventually they can copy your daily trading patterns in races and profit on your wins. Users can make a team and play together. There will be daily updates of racers ratings, verified results thanks to our mechanism, signals for teams and transparent payment systems thanks to smart contracts, all of which will improve your experience on the IOI platform.

The IOI platform will not limit itself to the intersection of gambling and blockchain, but will also aim to enter the market of crypto portfolio management and trading. We also plan on developing our own API for trading.

Why should beginner traders join IOI?

IOI offers people to become a part of a network of traders, gamers, and leaders. You can learn from more experienced crypto traders and earn money alongside them. We are not just another social trading platform; we represent a revolution in crypto trading. Once you join, you will realize that crypto trading can be fun and entertaining. We believe that gamification is the key for widespread adoption among potential crypto traders around the world.

Why should experienced traders join IOI?

More experienced traders can become racers and participate in trading contests that are known as races. Racers compete against each other by making smart trades and raising their return on investment (ROI). A racer's rating is calculated based on their weekly points.

Other advanced features

Besides funny trading we definitely want to keep the players on the platform.

The crypto market is growing extremely fast and we can not be behind. Platform offers plenty of other useful features that will keep users on the platform, such as:

- DeFi features
- Liquidity pool rewards
- Staking
- DeFi games – never loose, etc.
- Non custodial wallet access for ETH and TRON
- Nitro wallet
- CeFi functionality

Our goal is to become multi blockchain gaming platform focused on Ethereum and Tron with its own IOI Token with the deflation signs.

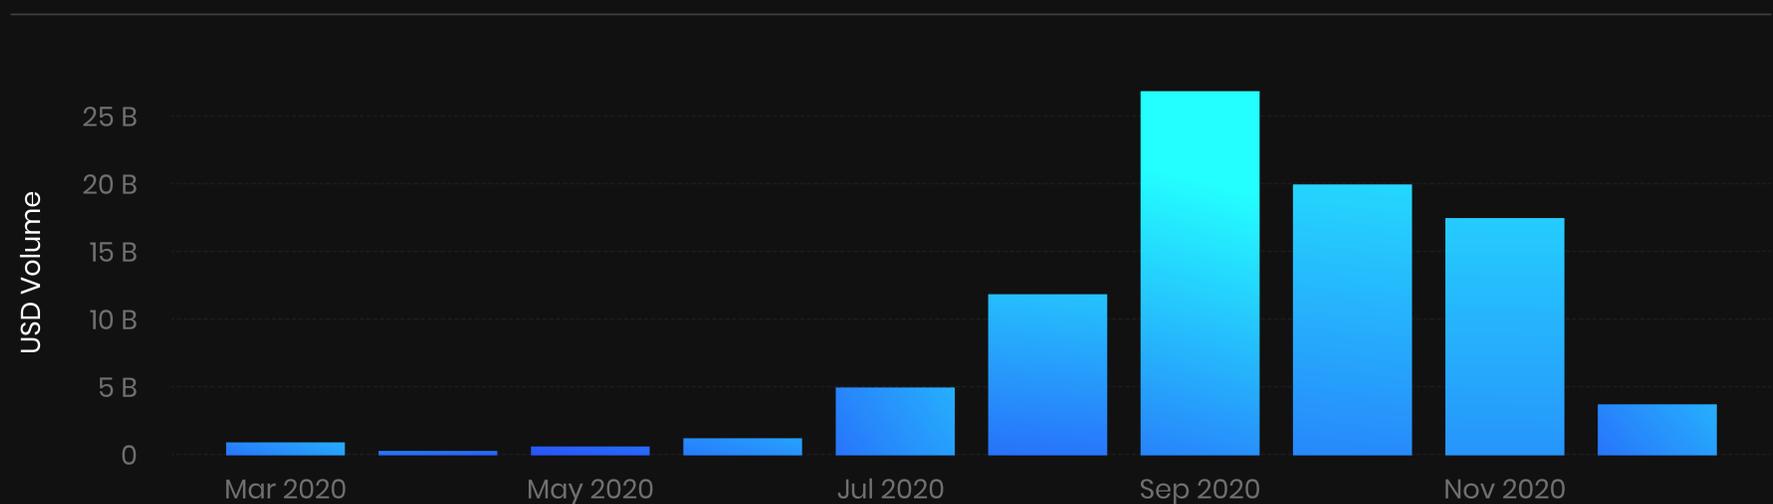

Market size & specifics

Global trends such as the long term increase of mobile phone penetration, internet penetration and the proliferation of blockchain technologies will provide ideal conditions for IOI's growth and scalability.

The cryptocurrency trading market

During the 2020, the net volume of all cryptocurrencies being traded within a 24-hour window reaches a value of over \$ 55 billion USD. Cryptocurrency trading is still dominated by the Bitcoin, but altcoins constantly emerge to chip away the lead and diversify the cryptocurrency market. As of December 2020 there are more than 6000 cryptocurrencies listed on 414 exchanges and the number is constantly growing. The number of exchanges is also growing due to growing interest in cryptocurrency trading, both in number of participating individuals and volume traded.

There is huge trend of the DEX volume growing with the max of 27 Billion USD in Sepetember 2020, especially on the Uniswap platform where the traders do not need to do KYC and have the cryptocurrency in their wallets. Hence this decreases the hacking risks since there is no third party involved, but smartcontract. See the chart below.

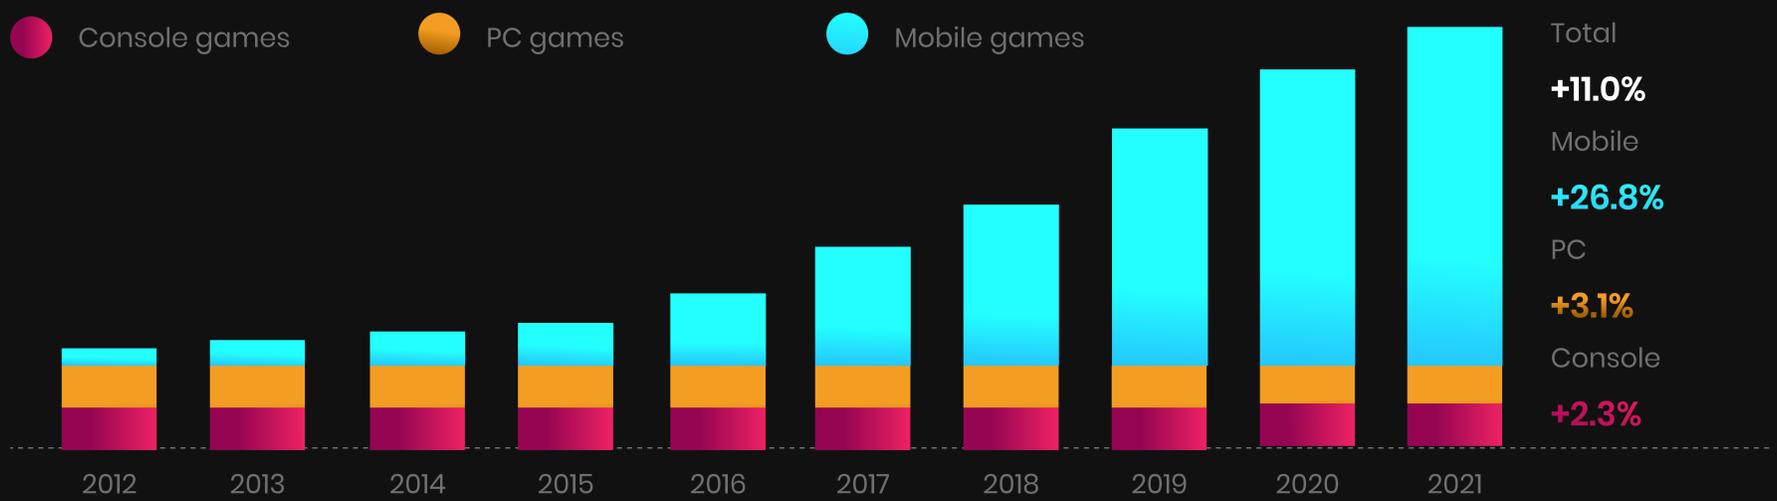

The rising popularity of crypto portfolio applications such as Delta and Blockfolio points to a large market of smartphone-based customers. These are of particular interest to companies targeting the younger generations, as Generation Z (born after 2000) and Millennials (born between 1985 – 1999), who spend an average of 4 hours and 38 minutes on an internet-connected smartphone every single day. Distrust of large banks and a fear of recession have made cryptocurrencies a popular investment among the younger generation. A 2019 poll published by eToro found that 40% of millennials (i.e. young people born in the period 1980–1994) preferred cryptocurrencies as a safe haven investment. This is also a positive sign from a macro point of view.

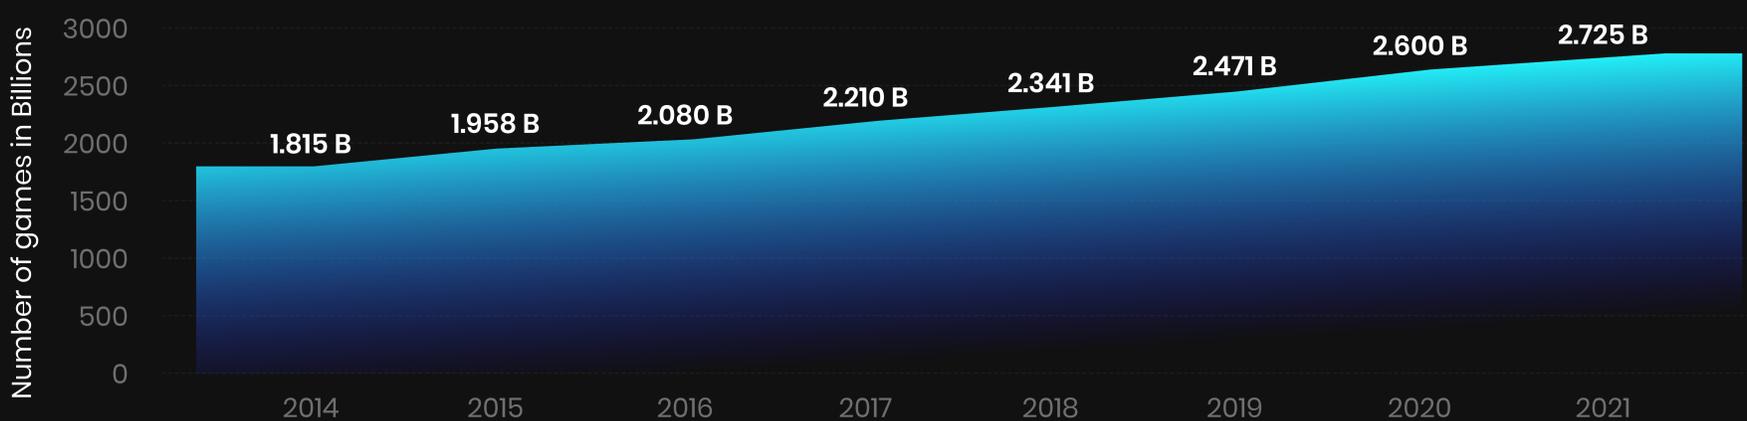

The gaming market

The global online gaming market is a fast-growing industry that is expected to reach a total value of USD 87.75 billion by 2024. It is a highly profitable and scalable business that will keep growing rapidly at an expected compound annual growth rate (CAGR) of 9.8% in the upcoming 5 years. Online gaming can be accessed by anyone with an internet-connected device. Each day, about 1 million new internet users come online. Further increasing the number of potential online gamers, yet there are still 3.2 billion people who lack internet access, allowing this growth trend to continue well into the future. However, the online gaming industry faces many unanswered issues.

The online gaming market has a bright future ahead and is expected to reach a total value of USD 180 billion by 2021 as indicated in the chart.

It is not just revenue that makes gaming market an huge opportunity, but with total of 2,6 Billion players forecasting, in 2021 every third person will become a gamer.

Trust in conventional lottery organizers has been eroded through scandals as well as a lack of transparency that has been present since the game's inception. There is an overall negative perception due to perceived unfairness, security issues, lack of transparency, lack of social character, skewed odds, high fees and low returns. As transparency, security and trust are the signature features of blockchain technology, it may provide an excellent solution to the challenges of online gaming. Blockchain itself is a large and rapidly growing industry. Forecasts suggest that the value of the global blockchain technology market will grow to over \$60.7 billion by 2024.

The popularization of the internet led to an exponential increase in the size of the global gaming market by creating an entire new sector; online gaming. Blockchain may prove to be a similar technological catalyst for the global gaming industry.

Online gaming and cryptocurrency trading

Gaming and cryptocurrencies have a significant overlap in their audiences. A 2019 Rutgers University study on gamers (defined as gaming at least once a month) found that more than half of the 897 respondents had traded cryptocurrencies in the past year. Cryptocurrency day trading offers a high risk/high reward form of investment which coincides with the entertainment offered by online gambling. The study claimed that "cryptocurrency trading is similar to gaming but anonymous, unregulated and available 24/7".

Opportunity

The establishment of blockchain as a standard commercial technology will remove even more barriers to markets in developing countries. Services that will accept cryptocurrencies as a form of payment will be more inclusive as they can offer their services to the global unbanked segment (1.7 billion people). Of these 1.7 billion adults, two-thirds own a mobile phone that can be used to access the IOI platform. Global drivers such as increased internet penetration, mobile and PC ownership, and the increased adoption of cryptocurrencies point towards greater demand for all- digital gaming platform that overcomes current customer issues such as lack of trust and requirements for personal information.

Blockchain technology can also tap into new market segments, most notably the global segment of 1.1 billion smartphone users who remain unbanked, as well as various regional markets with restrictive legislation. Games based on smart contracts would offer an automated, secure and transparent platform for this form of gambling.

The increasing focus on investment in new web 3.0 technologies such as blockchain, the improving societal perception of online gaming, and the emergence of new audiences via the internet will continue to improve the already excellent market conditions ideal for a platform such as IOI. The growth of the global online gaming and gaming market will be accelerated by a global increase in per capita income, adoption of new technologies, growing interest in alternative means of income and the rise of cryptocurrency payment systems:

Current issues

While there is a large amount of cryptocurrency exchanges, there is little variety despite the DEX grow and most new exchanges differ marginally from established ones. Exchanges tend to follow the same blueprint and target the exact same audience. Online gaming, like any form of gaming, can be manipulated against its participants, despite the high degree of scrutiny claimed by the organizers. Due to the high degree of centralization, organizers wield a considerable amount of power that is liable to abuse due to the current lack of transparency. Blockchain is a solution that offers a high degree of transparency. Blockchain minimizes the amount of trust required by a single actor by distributing it across a network of peers.

Multiblockchain platform

The IOI platform is aiming to become a multiblockchain platform powered by Matic with the same functionalities still running on the TRON Network.

This decision has taken some time and frankly, we admit it appeared in the moment that nobody had expected. As you probably think we have chosen this platform because of the scalability and speed of transactions, it is not completely true and the only reason.

Ethereum is the second largest blockchain platform. However, it has well known scalability constraints as the congestion crisis continues to cause slow and expensive transactions due to the DeFi growth. Matic Network is a leading Layer 2 scaling solution for Ethereum, which can eliminate the current network issues.

As a team we are experienced in the blockchain field and we are aware of the three elements triangle which are usually hard to fulfill.

We think that Matic is one of the best solution on the market that can follow these elements nowadays. Decentralized apps are making huge progress but current blockchain ecosystem is not prepared to scale as per demand. As a Layer 2 sidechain for Ethereum network, it is a perfect match. The issues of slow block confirmations and high gas fees need to be solved before we target the mass adoption. Scalability is realized by using a decentralized Plasma operator mechanism with finality achieved on the main chain and it can scale up to millions of transactions.

Matic network brings massive scale to Ethereum using adjusted version of Plasma with Proof of Stake based side chains. As mentioned above, Matic chain operators are themselves Stakers and Delegates in Proof of Stake system.

The IOI Game will also operate as a Validator node on the Matic network, maintaining the security and efficiency of the Matic network for over 80+ DApps.

The security is significant feature required and Matic uses account based variant of More Viable Plasma to guarantee the security of assets on the main-chain and it ensures also the security of generic transactions by a decentralized network of Proof of Stake validators.

Interoperability

You have probably heard the expression “Killer app” in the connection with Ethereum many times. We are sure and strongly believe that the “Ethereum Killer App” is wrong attitude and the only way is to adjust and be interoperable. That is why we have also chosen Matic that is built on Ethereum and moreover has asset interoperability trait hence assets on different sidechains across various blockchain will be made interoperable in the near future.

Once this happens, you can expect IOI to support numerous prominent blockchains and the tokens that exist on those networks. This will be in perfect match with our mission to converge blockchain and gaming, trading.

Community

As you know, there are many technically perfect projects with sufficient human and financial resources, but there is one key point that is missing – and that is a community. Every project needs to solve a problem and needs people to use it since without community and people, it is almost useless. This is a very important reason, for which we used Matic Network – because the community working and using the Ethereum network is huge. Matic provides increased scope for collaboration, development tools and future use cases.

IOI Ecosystem

Tokenomics and Tokenometrics

Tokenomics is the science of the token economy which can also be compared to a monetary policy in the micro economy scale, enabled by the blockchain network.

Any company can now set up a list of internal rules using their own token in decentralized manner to manage the company, also by their products users or customers. It enables incentives to be directly coded into distributed systems.

Hence tokenomics literally takes the monetary role of central banks in different scale, applying the tokenometrics as specific token rules.

This notion basically consist of the three main areas following by token creation, distribution or whole management, and removal or burning.

We need to emphasize that tokenomics is the key indicator in the crypto industry, and one of the decision point for future investors, opening them bigger possibilities not recognized in the financial world, up to now. It is also a matter of transparency and without a clear token rules, your otherwise perfect business ideas can become obsolete.

Our goal is the adoption of blockchain technology by leveraging the potential of token economy, through utility and value creation for network participants, such as gamers and traders who are well equipped to understand virtual economies.

Types of Tokenomics

- Utility – paying for services inside the blockchain ecosystem
- Deflationary model – reducing the growth of supply (Bitcoin)
- Inflationary model – increasing the supply
- Dual model – utility and deflationary (inflationary)

IOI Token

The token is needed in order to power the tokenomics and whole ecosystem. We at IOI gaming have our own token running on the Matic blockchain with the main features as follows:

- Deflationary multi utility gaming token
- Utilising Matic blockchain with the very low fees with some functionality still on Tron
- No network congestion
- Holding the token unlock the trading strategies up to 36 % p.a.
- Featured with DeFi and burning functions up 3x of the new monthly supply
- Dividend pool share and governance rights

Deflationary multi utility feature of the token is the key property we want to maintain. This is the long term game in general and the team's priority is the stable value of the token with the appreciation trend. There is no interest for any pump and dump short term games, and to enhance this function, we added the deflationary feature decreasing the supply, and offsetting it as adding more utility for players to increase the demand. You can observe the final burning calculation with the total token supply plan further in this whitepaper.

Matic is one of the most progressive layer two ethereum blockchain solution on the market nowadays. There many projects joining Matic every day. The goal is to cover the market and meet the player needs as wide as possible. That's why we chose Matic as explained also further but maintain some feature in Tron as multi blockchain platform.

The priority of the IOI platform is to bring the joy while playing the games and really bring some fun into the otherwise maybe boring and stressful trading.

We understand this and will definitely focus here. But we would like to bring and create something huge and exceptional for the crypto community. Would you imagine enjoying playing and getting rewards under the hood of one platform? This is exactly our idea, which we're going to bring you thanks to out partnerships.

Token utility

Since we are mainly a gaming platform, the top utility of the IOI token is gaming and with the token you can participate on the following activities:

- Play various IOI races
- Purchase more cars as NFTs – to increase winning chance
- Holding 1 000 IOI tokens entitles you to a share of the 10% dividend pool distribution
- Holding 10 000 IOI tokens entitles you to get a share of the 90% dividend pool distribution
- Holding 1 000 IOT tokens enables you to get 24 % APY from trading pool paid out daily
- Holding 10 000 IOT tokens enables you to get 36 % APY from trading pool paid out daily
- Access to never loose game – gas station
- Holding IOI token you have also access to various games and also staking as per the table below

Summary of IOI token utility benefits						
Token holdings	Games access	Staking (active) APY	Trading pool reward APY	Dividend pool share	Own team	Team membership
100	1x access to IOI tournament & Wednesday race	6%	12%	no	no	500 TRX
1.000	2x access to IOI tournament & Wednesday race	12%	24%	10%	yes	500 TRX
5.000	3x access to IOI tournament & Wednesday race	18%	24%	10%	yes	500 TRX
10.000 +	4x access to IOI tournament & Wednesday race	24%	36%	90%	yes	Free

The IOI token is like the fuel for the cars and holding it can bring you other various benefits.

IOI Token mining

Depending on how many TRX are used on the platform, a bonus IOI token is generated for the user. Purchase of IOI tokens on the platform is not included in use. Example: In Level 1, each user will generate a bonus of ONE IOI token using every minimum of 1000 TRX. When a cumulative 1 million IOI tokens are used on the platform, Level 2 rules of 4 million IOI tokens become applicable, as shown in the attached table.

Level	Used TRX	IOI token volume
1.	1.000	1.000.000
2.	1.100	4.000.000
3.	1.200	5.000.000
4.	1.300	5.000.000
5.	1.400	5.000.000

Gaming

IOI is a blockchain - based cryptocurrency social trading platform. You can trade cryptocurrencies, track your portfolio, learn valuable insights from other traders, copy the cryptocurrency trading of experienced traders (racers) or become a racer. IOI intends to be the most enjoyable way of trading, tracking and growing your cryptocurrency investments. Users will be able to participate in social trading with other crypto traders, copying their trades and making the best trades alongside them. Fans and racers may participate in races.

Races

The race is a cryptocurrency trading contest in which two or more traders compete against each other using their racing cars, the goal being to accumulate a certain total value through cryptocurrency day-trading.

How to play the game

1. Pick the car

Free races

Free race

Free race starts every 2 minutes and is considered as an onboarding game and a tutorial. It is limited up to 200 players per one round race.

The first 50 players split the price pool of 1 IOI according to this table and you can join with maximum 5 cars.

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
0.5	0.2	0.1	0.1	0.1	0.05	0.05	0.05	0.05	0.05	0.04	0.04	0.04	0.04	0.04
16	17	18	19	20	21	22	23	24	25	26	27	28	29	30
0.03	0.03	0.03	0.03	0.03	0.02	0.02	0.02	0.02	0.02	0.02	0.02	0.02	0.02	0.02
31	32	33	34	35	36	37	38	39	40	41	42	43	44	45
0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01
46	47	48	49	50										
0.01	0.01	0.01	0.01	0.01										

Free tournament

The free tournament is also a part of the free races. There are 10 qualification rounds where you are collecting points according to the table below.

The first 50 players split the price pool of 2 TRX according to this table and you can join with maximum 5 cars.

Racers receive points by this key:										
Position	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	25	18	15	12	10	8	6	4	2	1

Accept the challenge, take your racing to the next level, act like a champ and become a winner. This is the tournament for the best of the best. Guaranteed largest prize pool ever is waiting for the champion at the end of the tournament. The race starts every hour and you will go through 10 mad races to collect points. The best 10 racers advance into the next level where another 9 rounds of madness are waiting for them to prove their skills. After every race is one racer out and this phase-out will reveal only three true winners that will receive the tickets for the paid tournament with prize pool possibility. The minimum amount of participants to start a tournament is 10.

IOI Tournament

This race also starts every hour with the price pool of 10 TRX. You can increase your winning chance adding more cars to the race with the condition of holding IOI Token according the rules:

- Hold 100 IOI tokens – 1 car
- Hold 1000 IOI tokens– 2 cars
- Hold 5000 IOI tokens – 3 cars
- Hold 10 000 IOI tokens – 4 cars

Wednesday race

This race starts every Wednesday at 15.00 CET and winning price is 10.000 TRX. You can increase your winning chance adding more cars to the race with the condition of holding IOI Token according the rules:

- Hold 100 IOI tokens – 1 car
- Hold 1000 IOI tokens– 2 cars
- Hold 5000 IOI tokens – 3 cars
- Hold 10 000 IOI tokens – 4 cars

Paid races

We have two categories of paid races whereas you can enter with IOI tokens or TRX token. We will soon add ETH.

Tron races

10 TRX – You can participate in this race for a bet of 10 TRX to win up to 1,000 TRX which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get.

Duration is 30 seconds.

50 TRX – You can participate in this race for a bet of 50 TRX to win up to 5,000 TRX which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get.

Duration is 30 seconds.

100 TRX – You can participate in this race for a bet of 100 TRX to win up to 10,000 TRX which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get.

Duration is 30 seconds.

500 TRX – You can participate in this race for a bet of 500 TRX to win up to 50,000 TRX which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get.

Duration is 30 seconds.

1000 TRX – You can participate in this race for a bet of 1000 TRX to win up to 100,000 TRX which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get.

Duration is 30 seconds.

Adventure races

Police race

Beat the police cop. You can choose your difficulty level to compete with the one, two or three police man and multiply your bet 1X, 2X or 3X. The cop are trading bots from IOI trading platform.

More races to come – ambulance, fire, james bond, high score or VS.

IOI Races

1 IOI - You can participate in this race for a bet of 1 IOI to win up to 100 IOI which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get. Duration 30 seconds.

3 IOI - You can participate in this race for a bet of 3 IOI to win up to 300 IOI which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get. Duration 30 seconds.

5 IOI - You can participate in this race for a bet of 5 IOI to win up to 500 IOI which is 100 times more! Your car speed will depend on the performance of chosen crypto to fuel up with. Either give it a go like a pro, predict market and fuel up yourself or use the automatic function to fuel up with just one click. More cars you have in one race, a better chance to win you get. Duration 30 seconds.

Prize pool rules

This is a split between bonuses for you and development to provide cool new features on the platform – 20%

- 5% Development and marketing
- 5% Team bonus
- 5% IOI token holders
- 3% Jackpot and bonuses
- 2% Affiliate partners

- Development and marketing
- Team bonus
- IOI token holders
- Jackpot and bonuses
- Affiliate partners

This is split between active racers as shown in the table below 80%

Split between active racers					
Racers	2-4	5-7	8-12	13-18	19+
1st	100%	65%	50%	40%	40%
2nd		35%	30%	30%	23%
3rd			20%	20%	16%
4th				10%	12%
5th					9%

Team

Join or create the team and achieve an TOP 10 position with your teammates in the race and get a team bonus. To own the team, you need to hold 1000 IOI tokens, invite new users to your team and create a real following. Team membership is valid automatically from the 1st day of the month.

Create your dream team and share profits with family and friends. Help every one to achieve the top 10 in position in the race and get team points. The top 3 teams split 5 % of the total platform turnover as their bonus.

Team bonus

Thanks to the membership in the team there is an open chance to get a share of 5% of the monthly turnover of the bets on the platform.

Team membership gives you the ability to play for a share of the 5% team bonus based on the monthly betting turnover

Team bonus will be paid out once a month according to the bellow rule:

● 1st team receives 50%

● 2nd team receives 30%

● 3rd team receives 20%

Top 10 players in each team will receive a bonus according to the bellow table:

Top 10 player bonus in each team										
Place	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
% Racer of the month	30%	20%	10%	8%	7%	6%	5%	4%	3%	2%

How to earn on IOI platform

1. Register for free or download the Google play app in order to get 10 IOI tokens

2. Play for free in daily tasks to get more IOI tokens

Daily tasks

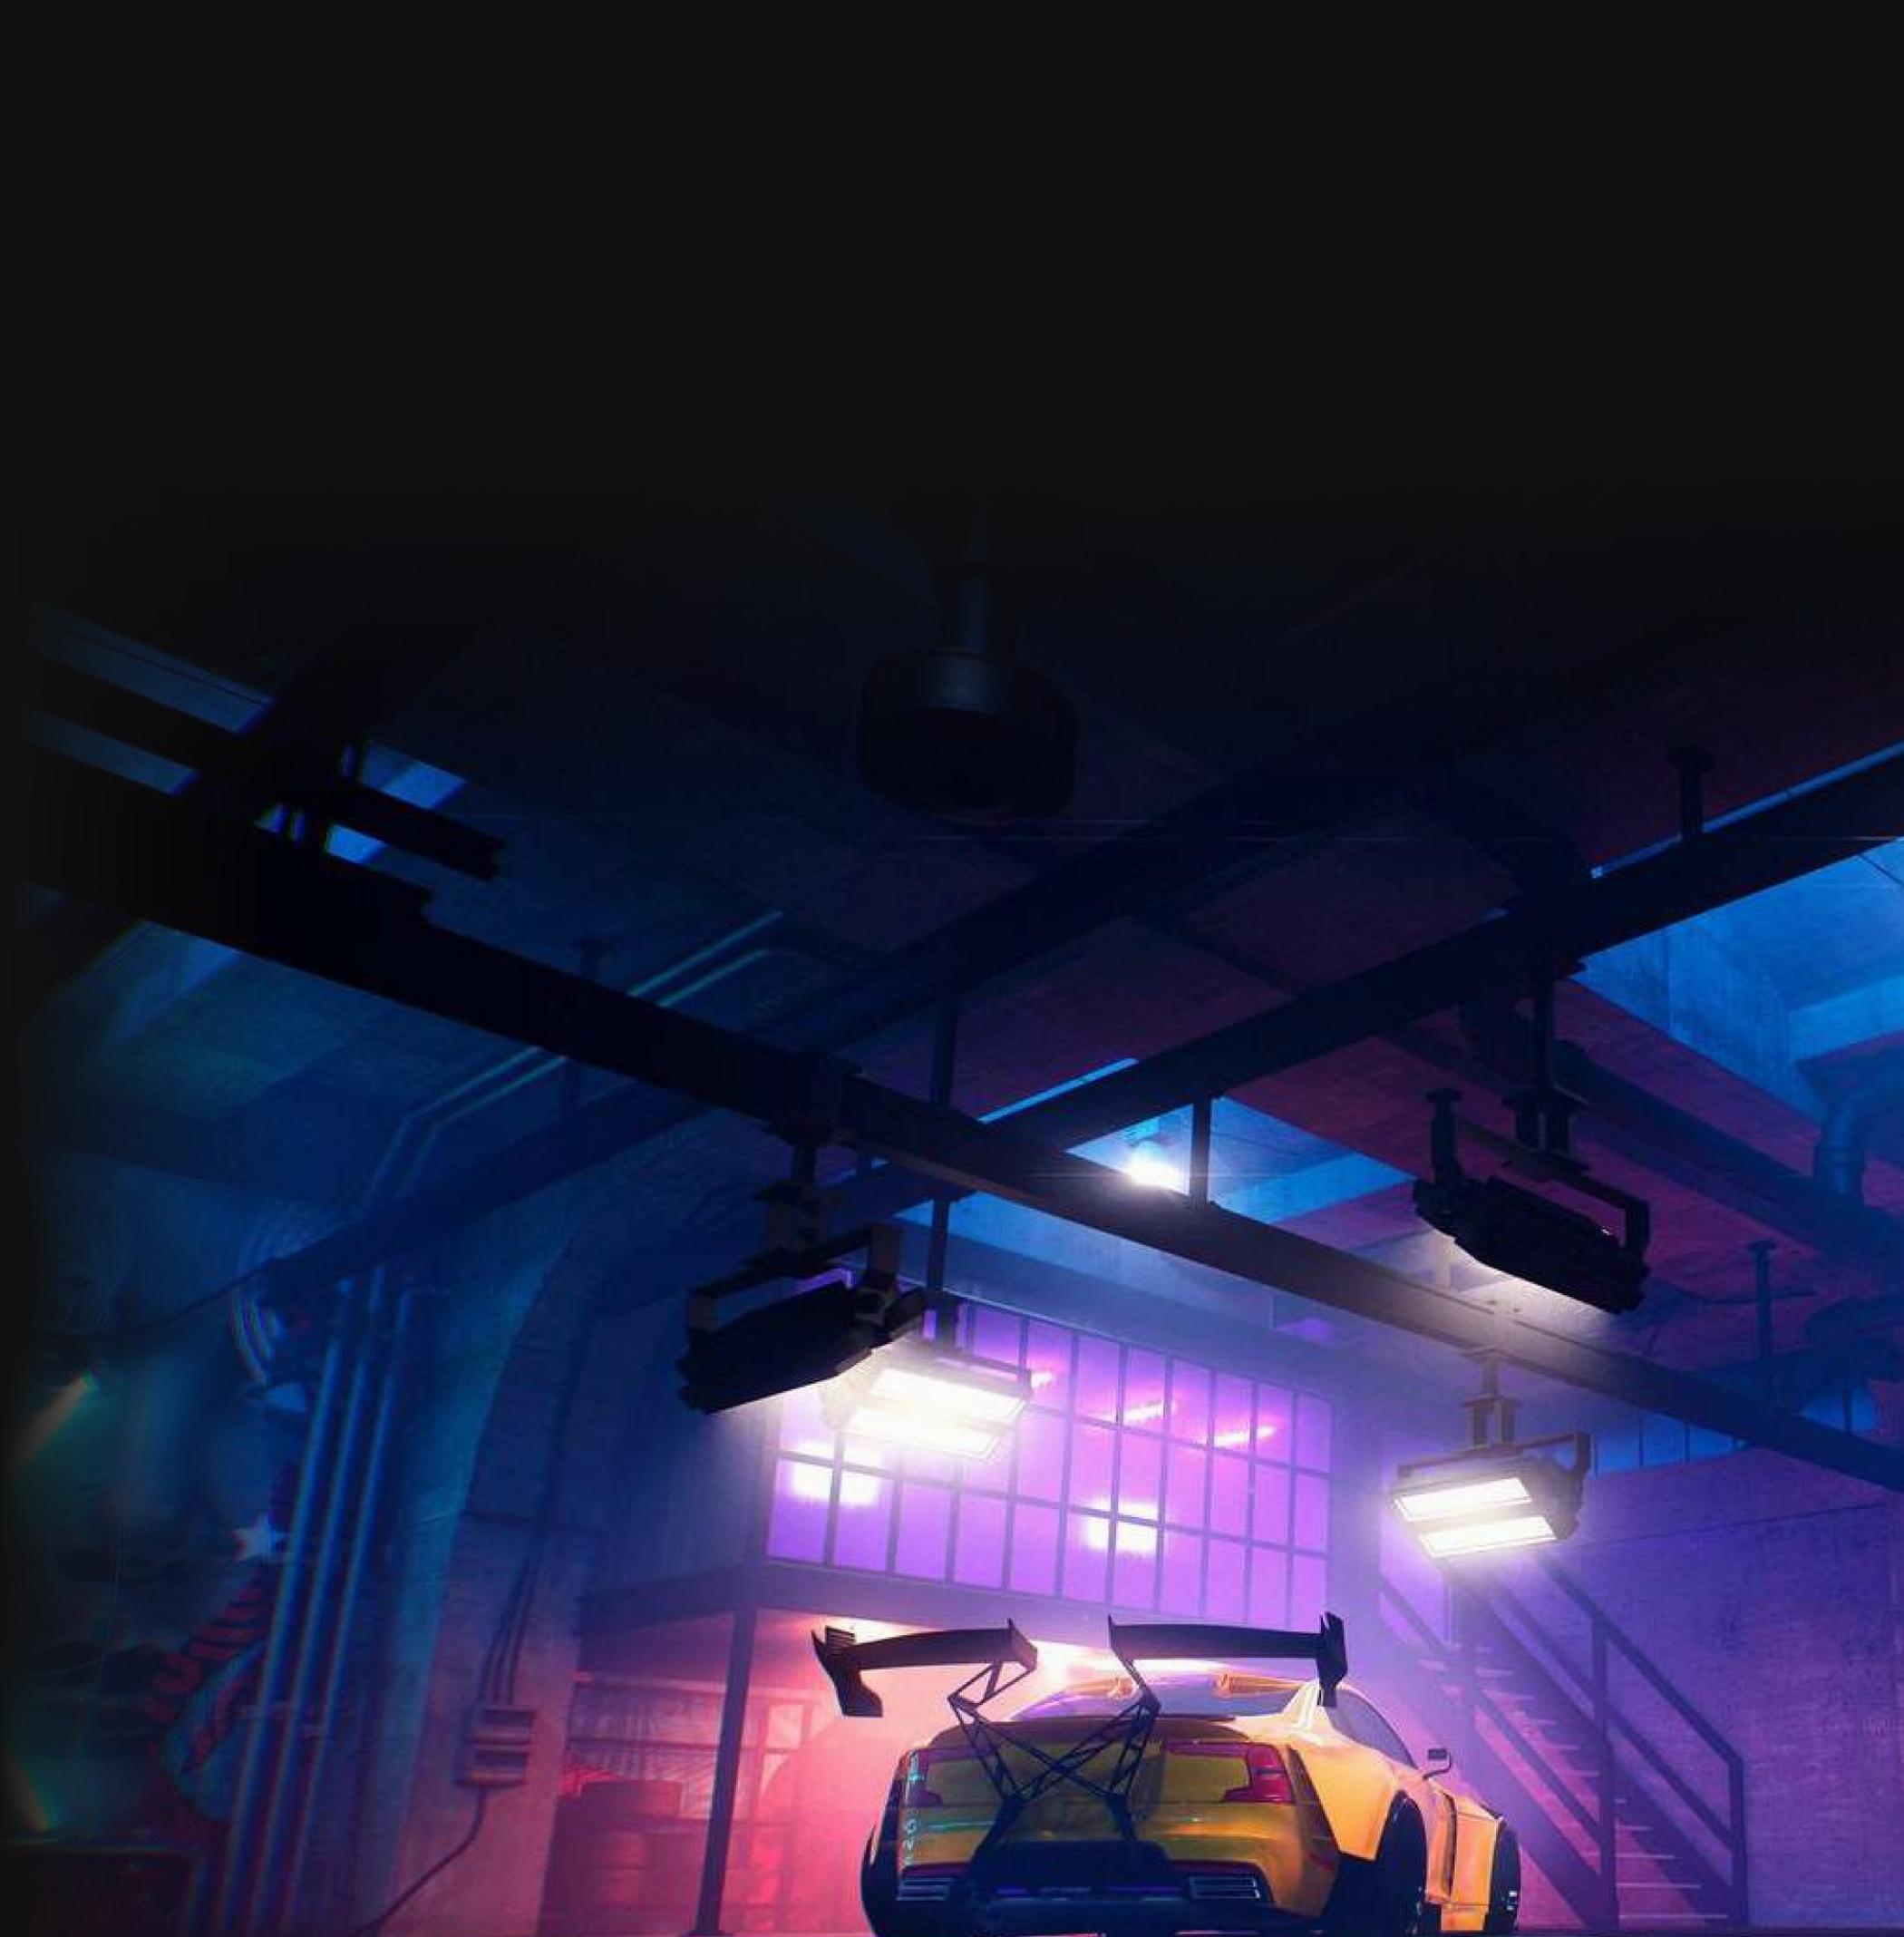

- Play a free race to get 1 IOI
- Make two referrals to get 1 IOI
- Play 10X a 10 TRX game to get 1 IOI
- Play 5X a 100 TRX game to get 3 IOI
- Play A 500 TRX game 5X to get 5 IOI
- Play A 1000 TRX game to get 1 IOI
- Deposit 1 000 TRX to get 1 IOI
- Play a golden race to get 5 IOI
- Play a tournament to get 1 IOI

3. Play paid races in IOI or TRX to multiple your portfolio

4. Join the team as premium member for the 500 TRX to get 5 % shares from dividend pool in TRX. You can get discount 10 - 30 % if you pay quarterly or yearly. You can choose to be the team member of the TRX or IOI team, and we will add more in the future. You can chat with other team members inside the team chat and you also have advantage of premium fuel (top three performance coin on the market in the last ten minutes). You can also join the team as a free member, but you wont get any advantages.

5. Garage – you can buy or rent various collectible cars. The collectible cars are the first passive income NFTs with limited number of pieces 20.000 as calculated in the table below. You can earn them for the volume made on the platform in TRX.

Cars												
Car tiers	1	2	3	4	5	6	7	8	9	10	11	12

Collectible cars and NFTs

You can purchase more cars to increase your winning chance. Each car has its value which will increase over time, as we are going to make the cars as NFTs, or non fungible tokens on the blockchain as well.

Use IOI Tokens to purchase cars and unlock the limited series cars. They can be personalized and become unique, hence it will add value so that the player can sell them later for a profit on the NFTs open market.

The player has a choice to park the car in his own garage and make extra deposit and enjoy profit similar to a renting the car on the daily basis up to 0,05 %.

We have four editions of cars – bronze, silver, gold and platinum. You can buy six cars in each edition and after you complete one edition you get one car for free.

Collectibles cars benefits:

- you can use more cars in the same race and increase your winning chance
- car staking up 24 % APY as indicated in summary table below
- cars in value range 100 – 1000 IOI get 6% APY, cars in value range 1000–5000 IOI get 12% APY, cars in value range 5000–10 000 IOI get 18% APY, cars in value range above 10 000 IOI get 24% APY
- staking rewards are paid in IOI token
- get one bonus car for free once you buy the complete edition and get staking reward according to the table below
- you can sell the cars for the profit on the NFTs market or hold long them long term in the future

Level	Name	Total price for collectible cars of 6 pcs	Bonus car value	NFT staking profit per edition without bonus car	NFT staking profit per edition with bonus car	Staking all together daily in IOI tokens	Races to receive bonus rewards
TIER 1	Bronze	1.800	1.800	0.60	1.20	1.20	30
TIER 2	Silver	3.000	3.000	1.50	3.00	4.20	50
TIER 3	Gold	4.800	4.800	3.20	6.39	10.59	80
TIER 4	Platinum	7.800	7.800	5.19	10.39	20.96	100

- with the car bonus you get 100% higher rewards paid out monthly with the condition of the races participated in a month, as stated in the table
- the price for the bonus car is in the value of the whole edition
- with the bonus you double the rewards
- each car has limited number of pieces

Dividend pool

The dividends are paid out once per month and you need to be an IOI Token holder to receive them.

Dividends are a public platform’s net profit pool in the currencies TRX and IOI. Watch the dividend pool getting filled in a real time and see the history of dividends distribution.

As we mentioned already - you need to hold 1000 IOI tokens to get 10 % from IOI pool and 10000 IOI tokens to get 90 % from IOI pool.

The pools are filled with two main sources:

TRX pool

- 5% from pain TRX games
- 50% from each paid team membership

IOI pool

- 10% from IOI games
- 50% from sold or rented cars

TRX GAMES

Earn 5% of all TRX that has been used across the whole game

IOI GAMES

Earn 10% of all IOI that has been used across the whole game

Gas station

This is the unique feature not only for gamers but also gamblers with the very hot exception. The winning odds in the normal lottery are very low and loss is almost guaranteed for every participant.

We have changed the approach here and want our players to stay and come back.

The prize pool does not contain all the deposits but only the profit made on them and that's why you never loose and only win.

This is a weekly game and there is a final drawing every Saturday at 12 CET.

Affiliate levels

Racers move to higher levels as they spend money on bets on the IOI platform.

- BEGINNER (level 1) has placed bets totalling at least 499 TRX.
- ROOKIE (level 2) has placed bets totalling 500 TRX to 9.999 TRX. Has to enter at least 1 paid race per week to maintain this level.
- PRO (level 3) has placed bets totalling at 10.000 TRX to 49.999 TRX. Has to enter at least 2 paid races per week to maintain this level.
- LEGENDARY (level 4) has placed bets totalling at least 50.000 TRX.
- Has to enter at least 3 paid races per week to maintain this level

LEVEL REWARDS

1.2) If your affiliate partner spends TRX on races you will get TRX according to your level

- LVL1 YOU GET 0.5% FROM IN TRX SPENT
- LVL2 YOU GET 1% FROM TRX SPENT
- LVL3 YOU GET 1.5% FROM TRX SPENT
- LVL4 YOU GET 2% FROM TRX SPENT

As a part of future development we plan to add more games like binary options.

CeFi – Centralized Finance

Since we would like to meet all the customers needs besides the DeFi features we have incorporated the CeFi ones partnered with Zizzy Group. We are basically offering two ways how the customer can participate on the advanced trading strategies. You can lock each profit from platform using this function with minimum of 5 000 TRX deposited.

- Holding 1000 IOI – 24 % APY
- Holding 10 000 IOI – 36 % APY
- Dividend pool share in case of higher profits

DeFi – Decentralized Finance

The crypto industry is doing huge steps ahead and there is big financial and human resources inflow which proves bright future for blockchain companies.

The hottest topic nowadays is DeFi – decentralized finance or banking without banks or intermediaries. We have experienced almost 15x growth from 1 to 15 mld USD of the value locked in the DeFi projects in 2020 and this is just an beginning. Our IOI token is also featured with the DeFi functions as follows:

- Active staking enabled on the platform (play & stake)
- Liquidity pool rewards
- Uniswap DEX listing
- Non custodial wallet access via Metamask and Tronlink
- New feature as per the market development

Custom Nitro wallet

We have built in multi-chain digital wallet which enables management and use of digital assets without the requirement for third-party browser extensions. Wallet enables direct token transactions and use for payments.

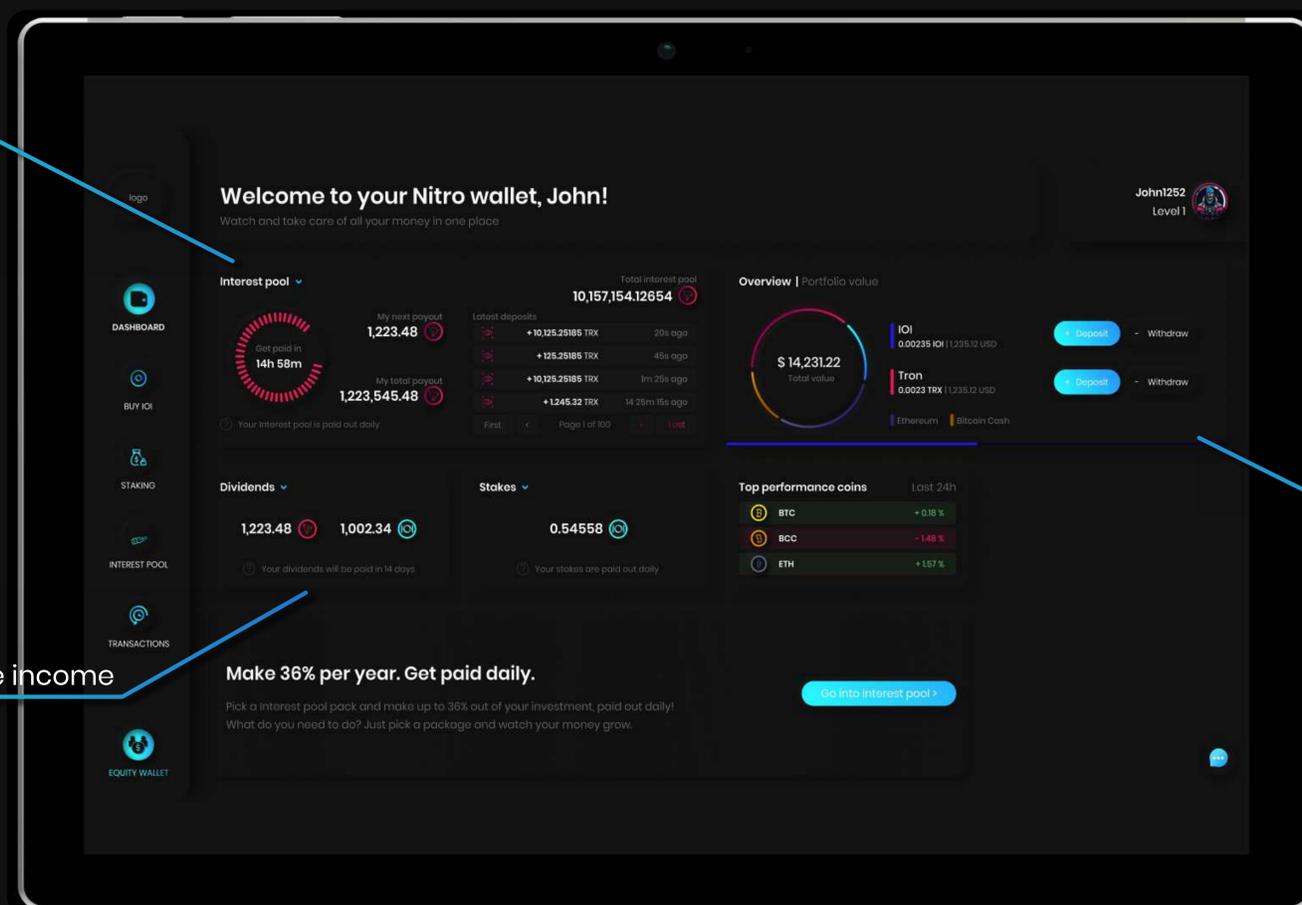

The name of the wallet is NITRO and it brings you access also to staking. The wallet is available for desktop and Google play mobile version.

We're bringing the unique crypto and investment Nitro wallet on the Google Play and App store coming soon completely for free!

Nitro wallet is a new standard. Not only your assets, or basic overview. We are bringing you lot more.

- Multi deposit – we got you covered with 6 coin options and all main fiat currencies
- Real – time info – our trading feed comes from 120 exchanges for reliability and accuracy
- World class analytics – learn how to analyze markets with Tradingview tool integrated
- Daily profit – Invest and get paid every single day
- Make 10 % as a referral commission

Your portfolio overview

Daily Dividend and Stake income

Token supply

The total token supply of 100 Mil tokens is distributed as with the following notes important to be mentioned.

- the team tokens are locked by smart contract for a specific time schedule
- the public sale on the DEX exchange is forecasted as per the roadmap
- current circulating supply is up to 1 mil tokens with the monthly increase by 200 000 tokens consist of gaming rewards, bonuses • and staking rewards
- the monthly new supply ration depends on the platform usage and is offset by the burning plan
- liquidity pool will be the part of the DEX listing as part of the DeFi plan

Ecosystem incentives

Time lock for team

Burning mechanism

IOI Game team has decided to choose the dual token structure with utility and deflationary traits.

Regarding the deflationary function we are going to follow these principles.

- Decreasing supply means price appreciation
- The idea is to burn 3x of the monthly new supply related only to staking and gaming
- Currently new 140 000 tokens monthly as bonuses for gaming, staking etc.
- More you play more you gain
- The plan is to decrease the final token supply from 100 mil to 40 million
- Growth of the game participants more than 10x in four years
- Burning ratio adjustable with IOI holders governance rights
- Burning but sustaining token liquidity

Deflationary burning mechanisms provide value to the IOI token through reducing the overall supply. The effect of these mechanisms is enhanced as the number of users increase and platform activity grows.

Naturally, we will see incentive mechanisms play a complementary role with the aim of encouraging users to interact with these smart contracts and features, further increasing demand and enhancing the deflationary effect.

This is the burning plan for the next 4 years whereas we are planning to burn almost 60 % of the total supply and decrease the supply from 100 million down to almost 40 mil tokens as indicated below.

Circulating supply and burning effect

2020

SUMMARY

0 IOI burned

560,000 IOI in circulation
0 % share of burned tokens

Road map 2021

Q1

- Strategic partnership
- Trading Pool Function - Get up to 36% against USDT for Deposit TRX to Trading Pool for 30 days
- Optimization and update for 2.0 version - 1 000 players per race
- Listing IOI token on exchanges
- Integration Tronlink and Matemask wallets
- Add ethereum network connection

Q2

- Car staking up to 24% per year
- Car trading pools. Deposit to car to earn extra profit , payout daily up to 0.05%
- NFTs features on car with limited 200.000 pieces
- Binary option game
- VS game

Q3

- 3D engine for races
- Private keys for nitrowallet - Cefi and Defi version
- Inter market for NFTs

Q4

- Strategic partnership
- More utility function for IOI tokens
- Listing on CEX exchanges
- Special Christmas event with huge prizepool

Legal

IOI is working with its legal partners so that it can comply with regulations from around the world and avoid any possible law breaking. IOI has had several consultations with authorities and commission and it can receive required documents in order to achieve its goal. That is, why IOI has established a company in Curacao that applied for an online gambling licence with a subsidiary in Cyprus. Regarding this structure, IOI can receive a global online gambling licence. This excludes the USA, as it is prohibited by the federal law. For this purposes IOI and all mechanisms have to be clearly specified, proved and protected against any possible fraud, hack, or any other harmful act that could cause any kind of problems for its users or IOI.

IOI promises to behave transparently. Thanks to blockchain, all transactions are auditable at all times. IOI will hire an external audit company that will take care of all audit duties related to the object of its business.

For all traditional payment services (VISA, MasterCard, Qiwi, PayPal, WebMoney, mobile message payments etc.) for users from EU IOI will use its subsidiary in Cyprus. IOI will exclude all U.S. located contributors from its funding plan. Periodicity of licensing: 1 year.

Legal disclaimer

PLEASE READ THIS DISCLAIMER SECTION CAREFULLY. THIS DOCUMENT IS CREATED SOLELY FOR INFORMATIONAL PURPOSES ABOUT THE IOI PROJECT. NOTHING IN THIS WHITE PAPER CONSTITUTES, OR IS INTENDED TO BE CONSTRUED AS, AN OFFER TO ISSUE, ALLOT, SELL, OR OTHERWISE TRANSFER, OR AN INVITATION, ADVERTISEMENT, SOLICITATION, RECOMMENDATION, ADVICE, OR INDUCEMENT TO INVEST IN OR MAKE A COMMITMENT TO INVEST IN, ANY SECURITIES, OPTIONS, OTHER FINANCIAL INSTRUMENTS OR OTHER ASSETS, WHATSOEVER. THIS DOCUMENT IS NOT INTENDED TO GIVE AND DOES NOT CONTAIN ANY SORT OF PERSONAL, LEGAL OR FINANCIAL ADVICE. IT IS HIGHLY RECOMMENDED TO CONSULT YOUR OWN LEGAL AND FINANCIAL EXPERTS FOR FURTHER GUIDANCE.

1. The main goal of this White Paper – introduce the IOI Project and tokens to the potential token-holders and users.
2. The information set forth below cannot be exhaustive and does not imply any elements of contractual relations. Its sole purpose – provide relevant and up-to-date information about the IOI Project and the team behind the project to the potential token-holders in order to determine whether to conduct a more thorough analysis about the Project with the intention to purchase tokens.
3. Although this White Paper aims to provide the most relevant and accurate information, the information set forth in this document is only intended to provide general and preliminary information to the potential token-holders and shall not be construed as the basis of any investment decision or strategy. This document in no way constitutes professional advice.
4. Nothing in this White Paper can be considered or construed as forming part of the Prospectus of any kind. The information provided in this document has no relation to the securities offering in any jurisdiction. This document is not made in accordance with the laws or regulations of any jurisdiction since it carries the informational purpose only and is not, therefore, subject to the laws and regulations designed to protect investors.
5. IOI Token is only intended for private sale in jurisdictions where no securities regulatory regime has been imposed on tokens by authorized governmental bodies. Potential investors from the abovementioned jurisdictions may purchase IOI Tokens via private deal in accordance with the IOI Token Sale Agreement and this White Paper.
6. IOI token is not intended for sale or use in any jurisdiction where the sale or the use of digital tokens is prohibited. For persons from such jurisdictions, this White Paper is for informational purposes only. The company reserves the right to conduct a verification procedure in accordance with IOI AML/KYC Policy. For more information on the jurisdictions that are excluded or restricted from the public token sale, please refer to the IOI token Sale Agreement that can be delivered after request. The list of prohibited countries residents can be found also in Legal part of this document. Please read the IOI Token Sale Agreement carefully before purchasing any IOI tokens.
7. IOI token does not give and cannot be construed to give any financial, legal or other rights in any form apart from the rights expressly defined in the Token Sale Agreement. In case of differences in the IOI token definition in the White Paper and the Token Sale Agreement, the Token Sale Agreement definition shall prevail.

8. The risk of investing in tokens is high given the unstable regulatory frameworks, market volatility and fluctuations. Thus, only investors that have a sound understanding of the way crypto industry operates and those that have read the risk warning contained in the Token Sale Agreement, the latest version of which can be accessed on request, should purchase IOI tokens.

9. Some of the statements in the White Paper include forward-looking statements which reflect the Company's and/or the Directors' current views with respect to financial performance, business strategy and future plans, both with respect to the sectors and industries in which the Company operates. Statements which include the words "expects", "intends", "plans", "believes", "projects", "anticipates", "will", "targets", "aims", "may", "would", "could", "continue" and similar statements are of a future or forward-looking nature. Such forward-looking statements or information include known and unknown risks and uncertainties, which can lead to the situation when the actual events or results materially differ from the statements and estimates implied or expressed in such forward-looking statements.

10. All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause the Company's actual results to differ materially from those indicated in these statements. These factors include but are not limited to those described in the part containing risk warnings in the Token Sale, which should be read in conjunction with the other cautionary statements that are included in the Token Sale Agreement. Any forward-looking statements in the White Paper respect the Company's current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to the Company's operations, results of operations and growth strategy.

11. These forward-looking statements speak only as of the date of the latest uploaded version of the White Paper in English. The Company with all rights to IOI undertakes no obligation publicly to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. All subsequent written and oral forward-looking statements attributable to the Company or individuals acting on behalf of the Company are expressly qualified in their entirety by this paragraph. Prospective token-holders should specifically consider the factors identified in the Token Sale Agreement which could cause actual results to differ before making an investment decision to purchase IOI Tokens.

12. This White Paper can be amended at any time to provide more detailed information or reject some changed circumstances. In such cases, the latest version of the document shall prevail over the older version. The Company does not undertake to notify of any changes. The latest version of the document can be accessed via our website www.ioi-game.com.

13. Although we make every effort to ensure that the latest version of the White Paper uploaded on the website is relevant and accurate, you must not rely on the information provided in this document as an alternative to the qualified professional advice from the third party.

14. If you have any special questions about any legal, financial, taxation or other issues, you should consult an appropriately qualified professional.

15. This document in the English version is the main official source of information about the IOI Project.

16. Information contained in this document may, from time to time, be translated into other languages or used in writing or verbally to communicate with the existing or potential clients, partners etc. In case there is a conflict or inconsistencies between the translated versions and the official document in English, the provisions contained in an official document in English shall prevail.¹⁸ The IOI company will not be liable to you in respect of any business losses, including without limitation loss of or damage to profits, income, revenue, use, production, anticipated savings, business, contracts, commercial opportunities or goodwill that may arise directly or indirectly from the document.
