## **Space Token (SPACE) Whitepaper**

Space Token (SPACE) is an innovative Binance Smart Chain Token that maximizes profit with DeFi Yield Generation and Crypto Earning Systems. Space Token has been created with a progressive, automatic burn mechanism to create a bridge between our product and our goals.

# Use Cases

## 1- SPACE as official Final Autoclaim's Utility Token.

Final Autoclaim is a famous crypto earning website which allows users to earn up to 50 different cryptocurrencies. With around 250.000 members, Final Autoclaim offers many different ways to earn cryptocurrencies, including surveys, staking, app-installations and video-watching.

Many of SPACE use-cases will be implemented to Final Autoclaim in the future.

## 2- SPACE Liquidity Mining

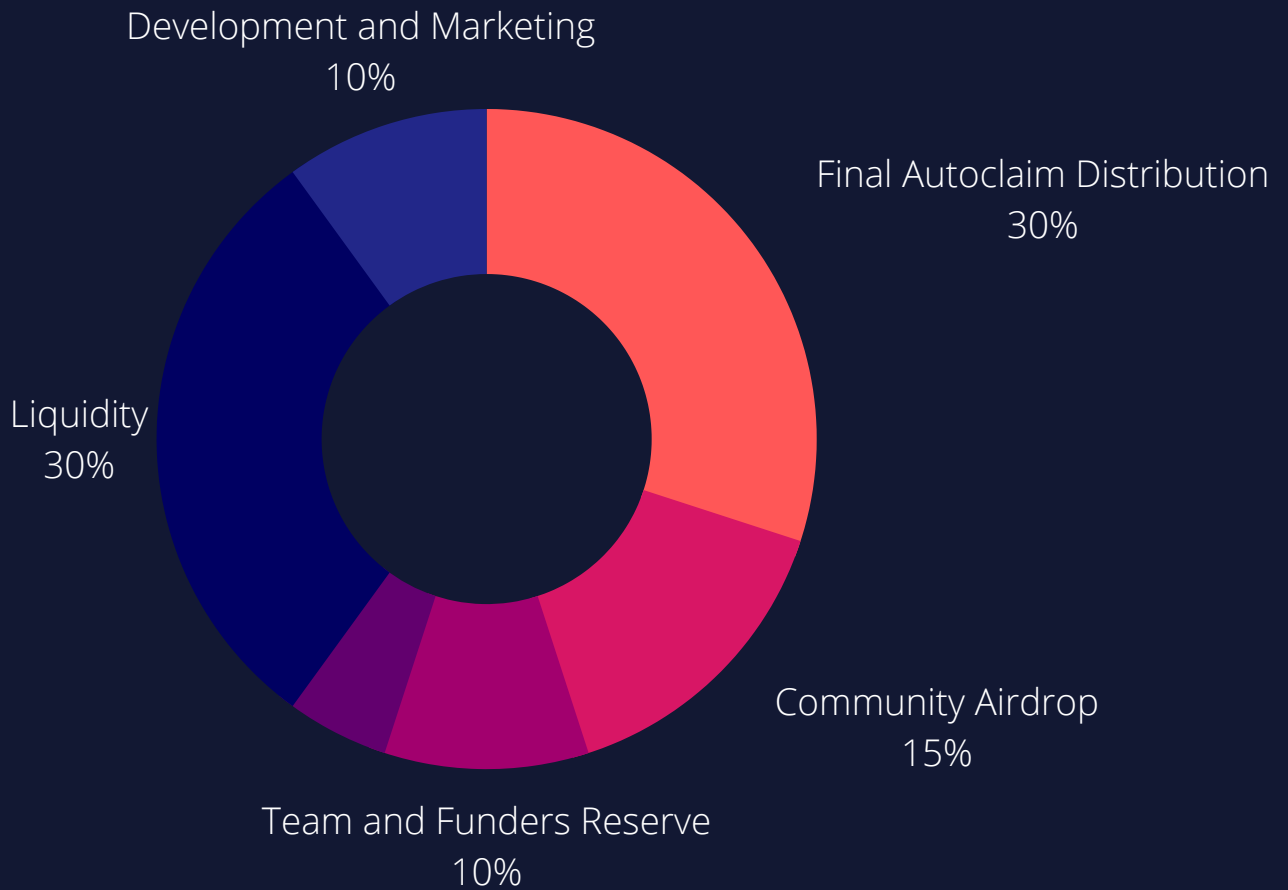

As a liquidity provider, you will receive Space Tokens from the exchange contract that you can then later use to withdraw your funds from the liquidity pool. As long as you have cryptocurrencies in the liquidity pool, you'll receive part of the fee paid by traders when they trade coins.

The fee is added to the liquidity pool and distributed proportionally to all current liquidity providers.

As Liquidity Pools make trading on DEX possible, anyone can become a liquidity provider as long as they can supply an equal amount of both BNB/BUSD and SPACE to an exchange contract on PancakeSwap.
