

WHITEPAPER

POWERDEX COIN

Preface

Powerdexcoin (PWDX) is a deflationary Defi Token that operates on the Tron (TRC-20)

- ◆ **meaning there are virtually no gas fees and almost instantaneous swaps! This is a token**
- ◆ **that rewards holders and punishes sellers, which can encourage a steadier price action.**
- ◆ **Powerdexcoin Finance is a community project, meaning that the community will be involved in the development of the project, each member will be able to participate in discussion and submit ideas.**
- ◆ **The main objective of Powerdexcoin Finance is to exploit the enrichment capacity and supply a new product marketplace where users buy, sell, trade and collect exclusive products! We also plan to create a complete ecosystem around decentralized industry, with physical and virtual products, with digital payments. Platform creators can charge by \$PWDX, and the platform will they also charge percentagebased fees for all transactions - and all will be settled in \$PWDX.**

Presale & Launch

To avoid a bomb and eviction situation, there was no pre-sale.

◆ Thanks to this plan we avoided having whales (at least in the beginning) that can dump on people if/when the price goes up.

◆ We have a total inventory of \$1 trillion PWDX. 12% of the total supply was burned right at launch! The team's portfolio constitutes ~1% of the current current provide.

◆ Portions of the development portfolio will remain blocked as the price rises further and a stable floor is formed.

◆ Liquidity is being developed through the exchange (BOLOLEX) where we list the currency right at the beginning.

◆ We focus on listing in brokers with considerable volume.

Liquidity

Sellers will be able to post their NFTs, which will only sell for \$PWDX! There will be an integrated VIP group of NFTs, completely free of charge.

- ◆ **This gives creators the opportunity to generate a additional income stream instead of relying on private platforms.**
- ◆ **Encryption doesn't have many fees, like fiat, so we can charge one.**
- ◆ **more competitive rate, providing greater income to breeders. Our sales fee will be charged to sellers.**
- ◆ **Pwdx is an exchange liquidity pool on TRON that is designed for efficient stablecoin trading. Pwdx is the native Defi in the Mydex platform, and is used for voting in platform governance, and as a reward for liquidity providers. A portion of the trading fees collected is used to conduct constant PWDX token burns. How a PWDX serves as rates for currencies with stable pairs, liquidity providers experience minimal impermanent loss, which can occur in liquidity pools where tokens with large value fluctuations are traded. The Powerdexcoin liquidity pool is integrated with JustSwap and pwdx.finance, which utilizes TRX and USDT, to maximize yield for liquidity providers.**

Future Plans

In the future, to reward holders we would like to carry out a buy back and lock of tokens. We could also potentially do a buy back and burn. This would be done with a percentage of the profits generated from the platform.

- ◆ Exchange MyDEX using \$PWDX as reference rate.
- ◆ NFTs.
- ◆ Launch Virtual Museum.
- ◆ In two years we will be a reference in the NFTs Market.
- ◆ Own Decentralized Exchange.

Powerdexcoin [PWDX] DATA

Total Supply: 1,000,000,000,000.00000000PWDX

◆ **Contract: TNpFGfVeB2eHCP8ToT6eLx9iw7kS3Cd4vn**

◆ **Decimals: 8**

◆ **Issuing Time : 2021-04-02 02:34:23 (UTC)**

◆ **Official Website: <https://pwdx.online/>**

◆ **TronScan:**

Transparency

Our goal is to biggest the placement of NFTs with digital currency payments on the blockchain. This is a challenge, but also a great opportunity to lead the field in this new market to demonstrate how encryption

◆ The & blockchain can be used safely and effectively in this context.

◆ We made the decision to partner only with sellers:

- Who are clearly over the age of 18, along with a corresponding identification attesting to their age. That have quality products for public consumption.

- This can be spoken directly, without going through a third party.

- That does not produce or has been involved in illegal material.

- This is already clearly established in the industry.

When dealing only with participants who can meet the above criteria, the development team can make sure that they are genuine and experienced people who are acting in accordance with their own free will. We encourage input from all members of our community who can contribute to the damage prevention.
