MEHH COIN

WE'RE MAKING CRYPTOCURRENCY USEFUL.

By connecting merchants, banks, and the blockchain with this open network, we're building a new, global payment system to challenge the status quo.

DISCLAIMER

Disclaimer of liability

This document is a technical white paper that represents the current status and future plans for the MEHH platform. The particulars mentioned herein are for informational purpose only and do not constitute any legal relations. MEHH does not take or purport to make any form of disclaims in terms of representation, warranty, or undertaking to any entity or person. We accept no liability for any damage caused by the use of this whitepaper.

This whitepaper may contain reference information, graphics, research data, and industry publications from third-party. We do not take any warranty to the accuracy and completeness of third-party data. Further, neither the third-party interference nor its assumptions are independently verified.

No offer of securities or registration

MEHH whitepaper does not constitute a prospectus or financial service offering document and is not an offer to sell or solicitation of an offer to buy any security, investment products, regulated products or financial instruments in any jurisdiction. No authority or governing body has approved of the information set out in this whitepaper. Registration for participation mentioned in this whitepaper is not guaranteed. You are not eligible to register for any MEHH Token or MEHH Coin if you are not a citizen or resident of countries where Crypto Trading is exempted.

No advice

The information in this whitepaper must not be considered for business, financial, legal, or tax advice. Consult your professional advisor before investing in MEHH or its products.

Cautionary note on forward-looking statements

The MEHH Whitepaper comprise statements that are forward-looking in nature subject to uncertainty and risk. Neither MEHH nor any other representative represents, undertaking and/or warranty to actual future results, achievements, or performance of MEHH may differ from mentioned in these forward-looking statements.

No factor causes the actual outcome or result of different future performances or policies of MEHH. Furthermore, MEHH disclaims any responsibility to update any of the information on forward-looking statements in reflection to future developments, circumstances, events, or in case of upgrades. For new information, we request you to reach us at info@mehhcoin.com.

The forward-looking statements are subject to evolve with time due to any update, risk, uncertainty and other factors, causing a change in future performance, or achievement of MEHH, to be materially different from original offerings.

Licence

MEHH intends to operate in full compliance with laws and licences. Subject to this, MEHH exempt to undertake any form of guarantee.

Third-Party Involvement & Rights

This document may refer to information (in form of graphics, content, links and more) from third-party websites which are subject to reference purpose only.

Further, no third party can use the information mentioned in the whitepaper for personal use. Whosoever, need to verify or use information from this whitepaper may require permission from MEHH.

INTRODUCTION

Introducing MEHH

MEHH is an open network for enabling instant cryptocurrency payments in stores and online, allowing merchants to receive secure cash deposits via their existing points-of-sale.

It is an IoT investment ecosystem powered by Ethereum, built on a open-source decentralised application that offers the ability to store and retrieve data from the blockchain ledger.

Our solutions are easily tailored to meet the context, organizational configuration, business workflows, and market landscape that are unique for each company.

By redefining the way people generate income, MEHH strives to democratise financial services so everyone has equal access to investment opportunities.

About MEHH Whitepaper

This document outlines our approach towards building a sustainable MEHH environment, a token economy, MEHH monetary and interaction policies, as well as providing an adequate fair price estimate for our tokens. After reading this document, you'll be able to easily and quickly understand the purpose of MEHH.

This is MEHH Whitepaper. Enjoy!

FUNDAMENTALS

Principle of Network Development

In order to become a trusted, public cryptocurrency payment rail, we believe that MEHHH must be:

Key Features

- **Compliant**
supports local compliance requirements and data protection.
- **Secure**
runs on safe encryption of information, putting barrier between hackers and identifiable information.
- **Instant**
provides secure, scalable and instant transactions powered by PoS side chains.
- **Open**
widespread acceptance and requires no proprietary license.
- **Simple**
simple integration, operation, and settlement for developers, merchants, and consumers.
- **Useful**
Broadly accessible and widespread acceptance beneficial for POS integrations.

MISSION & VISION

Our Versatile Solutions

Mission

To Remove Barriers to Owning Digital Assets.

MEHH is on an expedition to innovate the digital payments landscape by assuming a consumer and business-centric approach. Our efforts are powered by an ethereum-backed platform and dedicated cryptocurrency. This will offer our users a decentralized marketplace, where they can execute payments easily without compromising their security or incurring additional costs.

Vision

To facilitate the mass adoption of cryptocurrency.

In our journey to redefine the fintech industry we envisioned to:

- Transform how money is moved, spent or invested
- Safeguard data through secured blockchain technology
- Democratized blockchain technology by developing innovative platforms that make a positive effect.

USE CASES

MEHH Applications

In this section of MEHH use cases, we'll discuss both the consumer and business sides.

Integration with SocialRact App

Socialract is a mobile application that allows users to share content and get donations. The app utilises data from

The logo for Socialract, featuring the word "Socialract" in a stylized, cursive font. The letters are colored in shades of green and red.

users, thus cannot comprise the data security. It is a social media platform where users can interact and share content without any limitations. Besides, the users can send and receive donations on the post.

Fact

The social media industry is worth \$102.62 billion offering huge scope for integration.

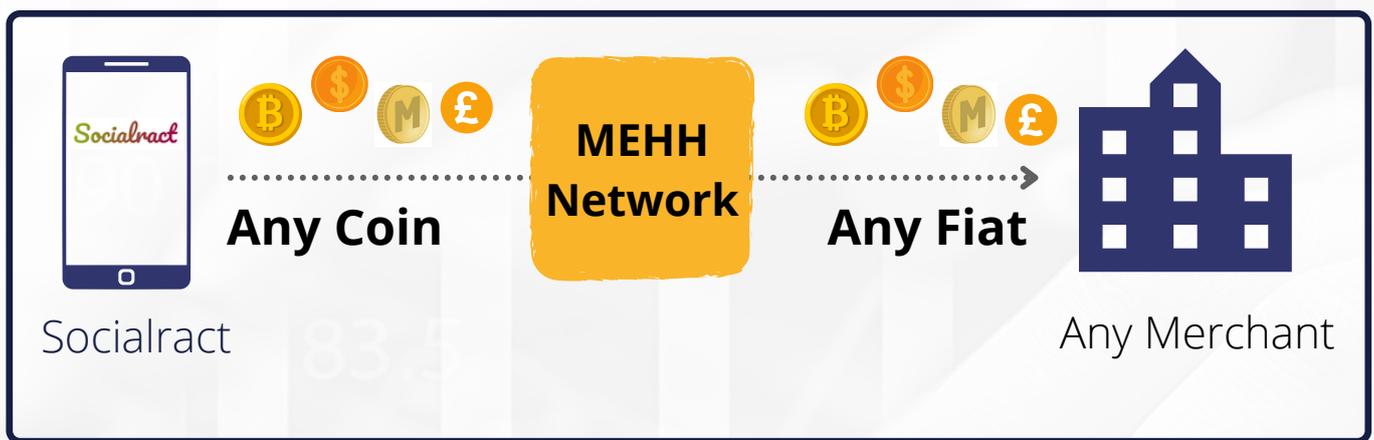

MEHH Benefit

MEHH offer a secure platform for content storage, transaction, and rewards.

- Users Can Donate Using Native Token

MEHH gives instant exposure to SocialRact users to use a native token or any other token for donations. MEHH next-generation public blockchain enables transactions worldwide between people and businesses.

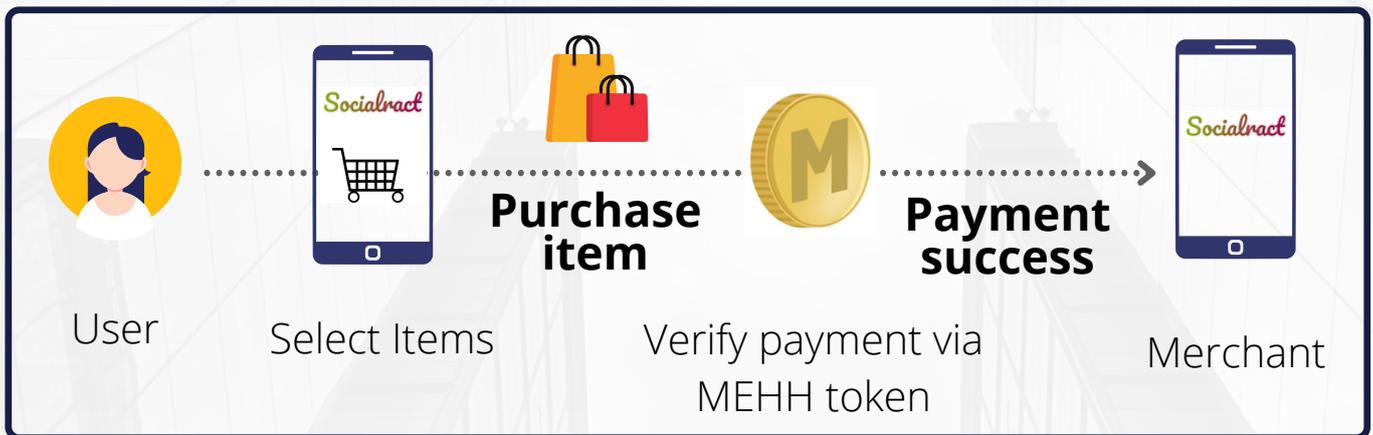

Our MEHH is a decentralised platform where users can send and receive payments from any wallet, in any coin.

Integrating MEHH platform with Socialract will allow:

- **Security:** Fault-tolerant design will ensure safe transactions.
- **Instant transfer:** MEHH delivers instant transfer confirmation at a low-cost fee.
- **Permissionless:** MEHH is an open-source project that welcomes users to join the network and contribute.

- MEHH Token to Buy Item on SocialRact

Purchasing items on SocialRact is easier and safer with MEHH Token. Once the user makes a selection of the items, then they can use MEHH Token as the payment option. After certification, the payment is transferred to the merchant's account and the item is delivered to the user.

Integration of MEHH token with Socialract app delivers the following value propositions

Consumer

- No uncontrolled storing or sharing your data
- Privacy and security assured
- Single sign-on
- Rewards for loyalty and referrals

Retailers

- Reduce fraud
- Reduced transaction cost
- Minimize regulatory exposure
- A new set of high-value customers
- Customize experiences using user behavioural data
- Offer MEHH Token as incentives

- Buy or Sell on Exchange Platform

MEHH platform is driving towards a better digital future. We allow users to trade coin on our exchange platform or any other native exchange platform. Our vision of enabling mass adoption of digital assets depends fundamentally on bringing a platform to market that is simple, intuitive and user-friendly.

Putting aside the risk of investing in digital assets, exchange offers a seamless trading experience to users, resolving the biggest barrier to entry for most purchasers.

CUSTOMER

- Buy a large range of tokens
- Easy access to buy, send or receive tokens
- Convenient to move tokens

Incentives

MERCHANT

- Receive payment in cryptocurrency
- Quick and easy access into digital assets
- High liquidity

- Currency Decentralization

MEHH platform is built on a decentralised Ethereum technology. Its permissionless network allows anyone to participate in the multi-layer network that solves partners, developers, and community needs alike. Our decentralised network delivers the following value propositions:

 Developer	<ul style="list-style-type: none">• Add retail payment features to any app• Streamline acceptance of cryptocurrencies for merchants• Eliminate volatility exposure
 Partners	<ul style="list-style-type: none">• Lowers barriers to launch payment service• Reduces cost of launch• Operate non-custodial micro-finance and micro-transaction services
 Community	<ul style="list-style-type: none">• Storewide variety of currency or tokens• Solves micropayment issues

- Other Decentralized Offerings

Other than the use cases mentioned above, we intend to build a suite of decentralized products, planned in our roadmap (see the section below).

MEHH is not limited to decentralized borrowing/lending services.

Some of our offering like reducing gas cost will be powered by MEHH Token. Or building a videogame on MEHH network. In addition to setting up MEHH research lab to carry out industry-inspired open access research in blockchain technologies and decentralized systems.

ROADMAP

MEHH Accomplishment & Milestone

COMPLETED

Partnership with SocialRact App

Partnering with a social media app SocialRact to send & receive donations on post!

COMPLETED

Development of MEHH Coin

Development of Native Currency - MEHH Coin with blockchain fork of ETH.

COMPLETED

Landing Page & Whitepaper

Getting started with creating brand awareness.

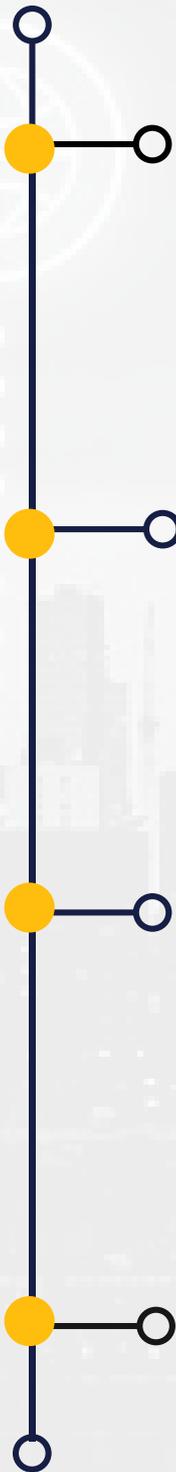

COMPLETED

Marketing & Community Building

Create a brand strategy and bring customers together.

ON-GOING PROGRESS

Accomplishments

IN PROGRESS

Integration of MEHH with SocialRact App

Configuration of MEHH Token on SocialRact app

IN PROGRESS

Wallet Creation for Users

Creating a secure platform for transactions

IN PROGRESS

Development of Cryptocurrency Exchange

Building an exchange and swapping platform for crypto traders

IN PROGRESS

Moving to Proof of Stake (POS)

Scale Ethereum via the Eth2 upgrades

LONG TERM GOALS

Future Work & Goals

TBA

Launch Native Currency / MEHH Token

Users can buy items with our native currency / other tokens on SocialRact

TBA

Gas Token

Reduce Gas

Increase transaction speed

Cross-chain & bridge Implementation with other blockchain

TBA

Token-Based Gaming Model

Development of Battle Royal Videogame

Integrating MEHH Token with Game

TBA

Lab setup

Studying the decentralized marketplaces
E.V lab setup and manufacturing

TOKENOMICS

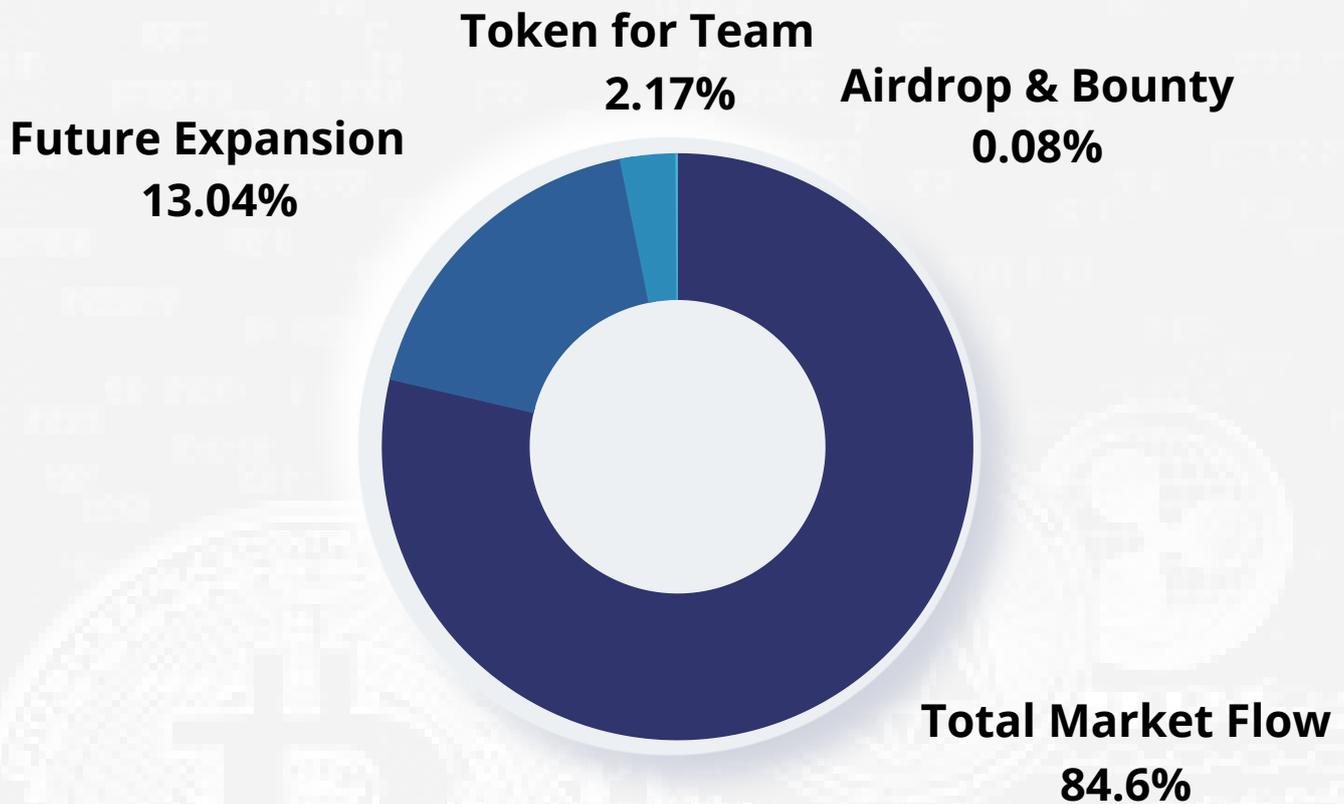

MEHH Token Tokenomics

MEHH Token is a native cryptocurrency, designed for the MEHH environment to power the ecosystem and govern the community. The total number of tokens created will be \$165m for initial liquidity for the community. While \$129.8m tokens of \$165m total issuances will be out for sale. With the rest, \$30m and \$5m a small portion is reserved for future expansion and shareholders respectively.

Token Market Distribution

Token name	MEHH
Token Type	ERC - 20
Token Price (per MEHH)	0 to \$1.68
Maximum token creation	230m
Total market flow	194.6m
Future expansion	30m
Token for teams	5m
Airdrop	100k
Referrer	100k

MEHH Token Allocation

Airdrops & Bounty

From time to time we'll be announcing airdrop & bounties to promote MEHH Token for community building.

CONCLUSION

Key Takeaways

Given the technological advancement in the past decade, and the failure of data decentralisation laid barrier to store information between networks, it is evident that crypto trading requires a major upgrade.

Technological innovation is the need of the hour which is a reliable and secure solution across stakeholders. Thus, MEHH aims to develop a platform through the use of innovative Ethereum Blockchain Technology that is easily accessible, convenient, and secure.

In this paper, we have discussed the design and implementation of the MEHH - an IoT investment ecosystem. It is comprised of a decentralised investment platform and a token. It is designed to create an open, fair, and streamlined environment for the next generation of investing to give everyone equal access to the multi-trillion dollar economy.
