

FUTUREFLIX

WHAT IS WHITE PAPER?

A white paper (sometimes referred to as a light paper or white book) is a report or guide that informs readers concisely about a complex issue and presents the issuing body's philosophy on the matter. It is meant to help readers understand an issue, solve a problem, or make a decision.

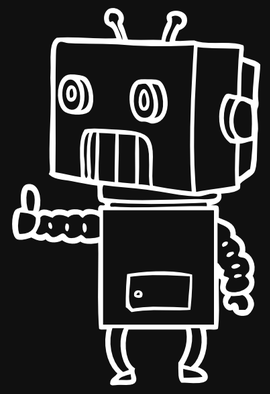

FUTUREFLIX

INTRODUCTION / INFORMATION

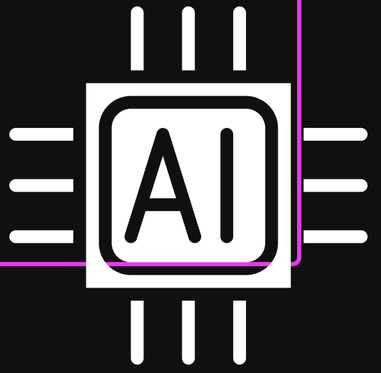

We are people who truly love science.
We are people who not only love, but devote our lives.
We have developed projects on artificial intelligence by following it for years.
Our artificial intelligence developed itself by completing many person-oriented tasks on the Internet.
Moreover, big companies like Amazon still think that the works we complete belong to a human being.

ARTIFICIAL INTELLIGENCE

Artificial intelligence leverages computers and machines to mimic the problem-solving and decision-making capabilities of the human mind.

FUTUREFLIX

INTRODUCTION / INFORMATION

Although we do not share our name for now, most of the news you read belongs to us or has something to do with us.

We started with a crazy idea and we didn't make a project using only artificial intelligence.

We have signed a project that will break all taboos such as producing artificial intelligence within artificial intelligence.

We realized that we were very limited for security reasons.

The reason why we are limited is not us, but the current internet and user infrastructure.

We can't just put our artificial intelligence project in the middle of the internet.

Even if we are ready, the internet is not ready for this. Even if the internet is ready, our artificial intelligence is not ready for it yet.

FUTUREFLIX

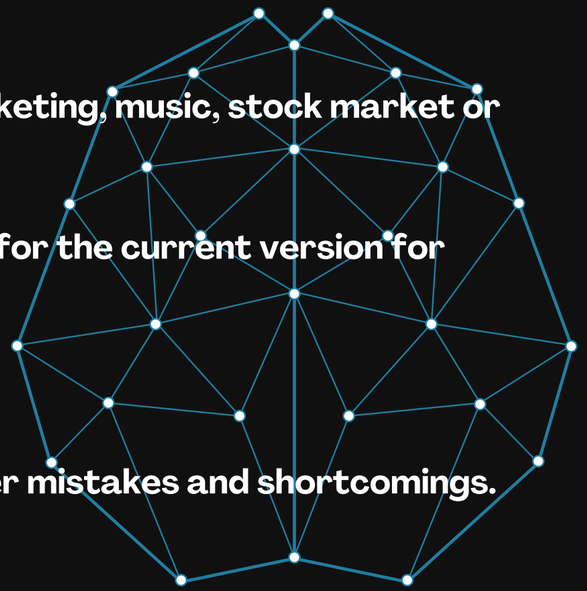

INTRODUCTION / INFORMATION

We thought about the artificial intelligence we created in industries such as gaming, marketing, music, stock market or health.

We confined the result of our endless tests in a closed box, thinking that it is not suitable for the current version for security reasons.

The film industry has been a real target for us.

Our artificial intelligence is in a position to report / teach a 60-year-old director about her mistakes and shortcomings.

FUTUREFLIX

DEEP LEARNING

Analysis time has really moved us forward.

For your better understanding, we will give an example as follows.

A movie that a normal person can watch in an average of 2 hours can be completed in as little as 3.5 minutes for our artificial intelligence.

FUTUREFLIX

DEEP LEARNING

Including data collection in 3.5 minutes.
In other words, after watching the movie for an average of 2 hours, the books written about this movie, the comments made on the internet, the ratings, the ideas, the advertisement shots, the comments of the celebrities and many content written about this movie...
These are analyzed, filtered and kept in memory.
During the analysis, we learned the following.
Our artificial intelligence started to predict all the comments, reviews, ratings and book contents to be made after the movie it examined, with 99.28% accuracy.

FUTUREFLIX

DEEP LEARNING

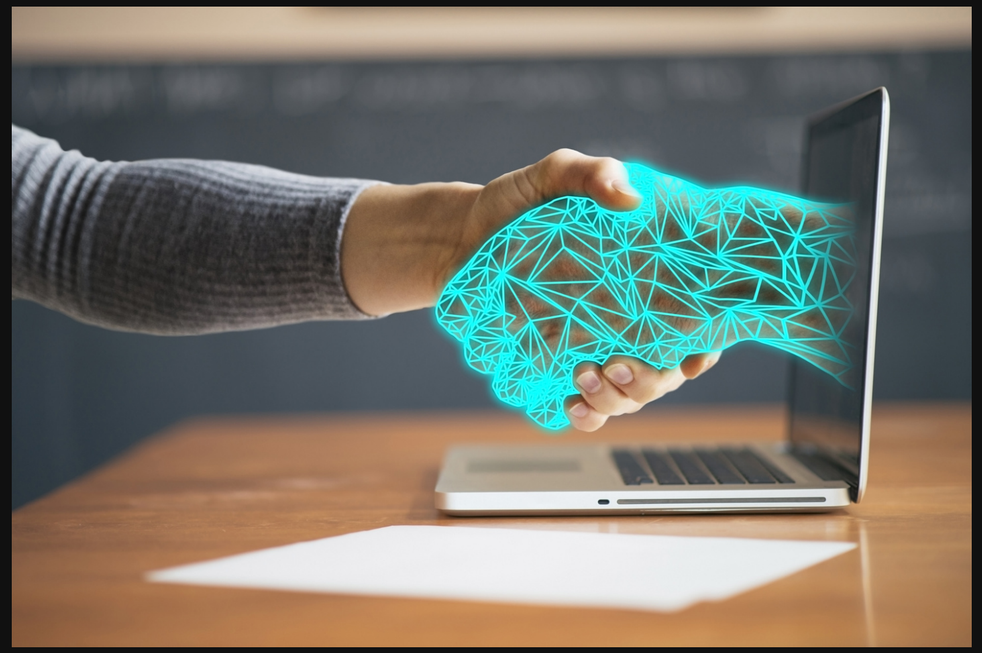

With this analysis result, we realized that we did the right thing.
As soon as we felt that we were really nervous in the first thriller film, we started the project process.
We have decided that it would be more appropriate to broadcast the works made after the project design, with the stream method instead of making them public with the traditional cinema method.

FUTUREFLIX

TECHNOLOGY / COMPATIBILITY

Although the majority of the world is not aware of Blockchain technology, this is something that really exists and cannot be stopped.

It's a fact that solves the problem and has an open future. FUTURE! Just like artificial intelligence...

No one can reject these technologies that will reach many more people in maybe 1, maybe 5 years.

You are very lucky to be the person reading this article right now. Because you had the opportunity to meet us.

FUTUREFLIX

REVENUE MODEL AND PROJECT

We share limited information about the future and progress of the project below.

HERE'S WHAT YOU NEED TO KNOW FOR NOW

1. It is an inevitable fact that the type of film designed by artificial intelligence and will be multilingual is animation.
2. Each series / movie will be 80% free and after 80% paid. This paid part will be the season finale or the ending scene of the movie.
3. The characters of the series content will take place in the NFT market and will be sold.
4. The characters of the series content will take place in the NFT market and will be sold.
5. With the wages earned, the liqidutiy will be increased.

FUTUREFLIX

AUDIT

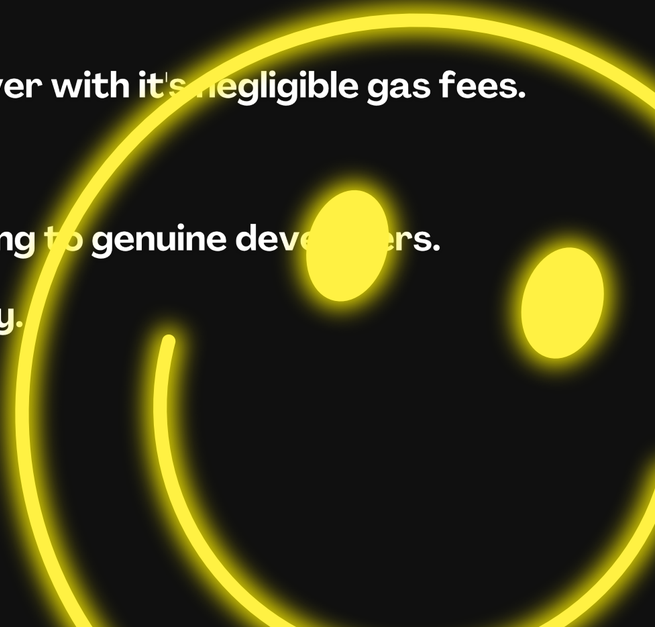

We belleve that maIntaInIng your trust and securIty is our responsibility.

The Binance Smart Chain network has made cryptocurrency less expensive and more accessible than ever with it's negligible gas fees.

While this is overall positive, it has some unfortunate side effects as well.

Scammers are able to take advantage of the same qualities that make the BSC network so appealing to genuine developers.

Luckily, there are ways for legitimate coins, like ours, to prove their integrity.

FUTUREFLIX

TOKENOMICS

CRETAD SUPPLY	1,000,000,000,000,000
LAST SUPPLY	982,555,643,112,149

ON EACH TRANSACTION

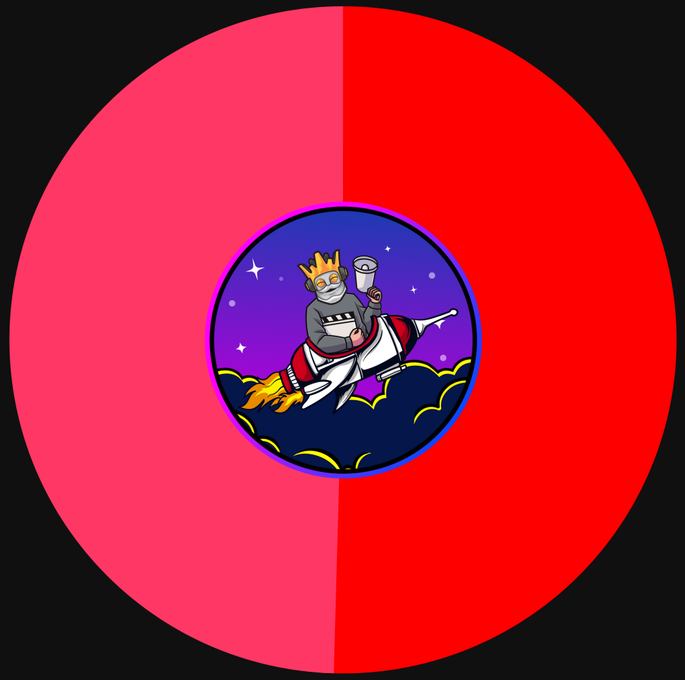

- 2% REDISTRIBUTED
- 2% BURN
- 3% DEVELOPMENT
- 3% MARKETING

FUTUREFLIX

TOKENOMICS

SUPPLY

FUTUREFLIX

WHY WOULD I BUY AND HODL FUTUREFLIX?

If you have read the project, we have no reason not to buy it.
40% burned while Futureflix token was created. 30% more burned. Thus, the total amount burned was 70%. Target 90%.

FUTUREFLIX

Project where you can swap your own and many tokens. The project will be a website and a mobile application.

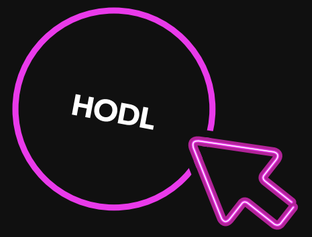

FUTUREFLIX

Website and mobile application where the created works will be listed.
UI will be shared soon.

FUTUREFLIX

ROAD MAP

COMPLETED

1. Contract Initialized and Verified
2. Token Initialized
3. PancakeSwap Listing
4. Social Media Account Created
5. Website Initialized
6. Created Burn
7. Manual Burn
8. Whitepaper Published

SHORT TERM GOALS

1. Listing on Advertisement Listings
2. FLIXSWAP published (DEMO)
3. STREAM PROTOCOL published (DEMO)
4. 1000 Holders
5. Manual Burn
6. 2000 Holders
7. Apply for listing on CoinGecko
8. Apply for listing on CoinStats
9. Verified on TrustWallet
10. Apply for listing on Coinmarketcap
11. Aggressive Marketing Campaign
12. Apply for new Exchange Listings
13. Top 10 Market Cap Listing
14. FLIXSWAP will be released (BETA)
15. STREAM PROTOCOL will be released (BETA)

FUTUREFLIX

BURNS DETAIL

40% burned while Futureflix token was created. 30% more burned.
Thus, the total amount burned was 70%. Target 90%.

There will be 2 more burns in the number of holders below.

1000

4000
